Thread: [Can i convert this VB.NET/PHP into HTML/PHP or JAVASCRIPT/PHP ?](#)

LittleSpy - July 7, 2011, 8:35 am

Guys i want to convert this code "Write to text file from VB.NET" into Web Page code.

This is the code:

```
Code Dim request As WebRequest = WebRequest.Create(WebServer.Text &
"/writetotextfile.php?w=" & MyText.Text)
request.GetResponse()
```

I want to make application same as this one, but on the web (To have theese textboxes in html, and when i press Save, to write them into my text file.

This is the php code i used (from Eleqtriq tutorial)

```
Code <?[h[
$msg = $_GET['w'];
$logfile = 'textfile.txt';
$fp = fopen($logfile, "a");
fwrite($fp, $msg);
fclose($fp);
?>
```

I know that this is possible but what language do websites use to do this"?

Do you know some methods to do this?

If you know, please help me.

I want to get result same as this one, but to post the data from the textboxes into a text file.

<http://www.youtube.com/watch?v=sz1v5XduHio&feature=related>

Thanks.

Go to php section dude. You will get help there. :)

CaZzUaLLv3x - July 7, 2011, 11:30 am

index.php

```
Code <form action="process.php" method="get">
text to write: <input type="text" name="w" />
<input type="submit" />
</form>process.php
```

Code <?

```
$msg = $_GET['w'];
$logfile = 'textfile.txt';
$fp = fopen($logfile, "a");
fwrite($fp, $msg);
fclose($fp);
```
