Thread: [Color code usertitle.](#)

Should be able to put colors in usertitle.

Would be cool, probably easily to implement.

Would bring out happier side of HF.

AGREE OR DISAGREE ?

I think this was already suggested Baked, and the thread got loads of replies. I support it though.

FunkyStepz - July 8, 2011, 4:32 pm

i would love this

i think it will bring a creative side to HF

Jay Bear - July 8, 2011, 4:33 pm

I support this as well. Nice idea OP.

Eminent - July 8, 2011, 4:34 pm

I like it how it is right now to be honest.

Riggs - July 8, 2011, 4:36 pm

Sorry, I don't support this idea. I think a rainbow assortment of page colors will only make HF look like more of a playground for all the 10 year-olds that frequently show interest in expressing their skiddy love for site content. I already think the Emerald and Sapphire awards look too much like something out of RS to be taken seriously.

iolaka - July 8, 2011, 4:37 pm

No support, I do not like this idea.

You just don't have a happy soul, riggs.

Can you explain why you do not like this idea ?

Kraksx - July 8, 2011, 4:38 pm

While I like the idea I agree with Riggs a rainbow of colors under each thread would be annoying looking

.Astro - July 8, 2011, 4:39 pm

Agreed, and we get to choose the colors, or will it be rainbow all the time ..

Baked - July 8, 2011, 4:40 pm

Why not just make it you choose a color, and that's the color of the whole thing.

No BB Code, just a little color box.

Threadlocks - July 8, 2011, 4:59 pm

I for one are not a l33t or ub3r but I think www.gfxforums.net has something like that. I agree.

Jeimuzu - July 8, 2011, 5:51 pm

Maybe it can only be one colour, as rainbows look too... Erm.

I support.

Trojan - July 8, 2011, 5:52 pm

I like that the white counteracts any color. Too many colors would just be obnoxious.

It's fine the way it is.

ChineseFountain - July 8, 2011, 5:54 pm

I don't think so. Someone could easily put admin, staff, mod, l33t, or ub3r color.

Ever since I joined in 2009 it's been like that though.

Out with the old, in with the new.

They could block out those keywords if you enable colours.

Bigandrewgold - July 8, 2011, 6:29 pm

i disagree with this, it would make it look like a rainbow

deiski - *July 8, 2011, 6:42 pm*

Support, But i'd rather to choose the colour yourself.

Not rainbow :)
