You like your text tool eh?

**.Astro** - July 9, 2011, 12:00 am

My idea, posted that in GM lounge.

Idea rip ... wut.

**khaleesi** - July 9, 2011, 9:15 am

Oh, my bad rofl.. I'll put your name in the credit for this idea when I get home.

**Warbiest** - July 9, 2011, 9:26 am

Soo... What exactly makes this official?

**khaleesi** - July 9, 2011, 3:59 pm

I don't know. I'm trying to encourage people to not make multiple threads since people might make multiple threads, and just keep one.

**Em re** - July 9, 2011, 4:10 pm

If you would like, i could make an online database, for people to submit rippers and then look at the profile of rippers? just like the red lion one for scammers?

PM me:D

**michaelmhmhmh** - July 9, 2011, 4:12 pm

What you mean ripped? Like stole a hole picture or using like a render of someones?

**.Astro** - July 9, 2011, 4:48 pm

Yeah pretty much, michael.

Renders/stocks and stuff like that don't usually count unless they weren't meant to be given out to the public.

**Phuziion** - July 9, 2011, 5:20 pm

This sounds awesome. A virtual GFX court.

The best idea yet!

3 people already. Alright, any links just incase we may accuse the wrong people? And Scribble, if you don't mind can you please make a formate for people to fill out if their reporting a ripper which includes links, etc since i'm on my phone atm.

+mK - July 9, 2011, 7:21 pm

Weren't you the one who made the thread for this? xD Lmao

.Astro - July 9, 2011, 7:24 pm

Emily junked the thread I believe, but I know one of her apps contained copyrighted images. Just go to the first page of GM lounge and you'll see the supporters.

PolarX, just look at his reputation. I'm sure some people remember him ripping the dead space tag, as well as the tutorial I think.

TheBurner, he ripped Wormag's signature, as seen in his thread.

And here's the format:

```
Code [color=#00BFFF][b]Username:[/b][/color] [i][color=white]Type here.[/color][/i]
[color=#00BFFF][b]Ripper's Username:[/b][/color] [i][color=white]Type here.[/color][/i]
[color=#00BFFF][b]Proof:[/b][/color]
[list]
[*]Link the threads/proof here, as well as any other member support.
[/list]
```
