Hi im currently selling youtube likes/comments on your video! PM me with the link to your video and as soon as the money goes through i will start the procces. It takes some time depending on the amount of views you ordered. But mainly not longer than 1 hour!

In this manner im not sure if im going first or not. If the person is trusted and such i can go first. Custom comments does NOT cost more. And if you choose this PM me what the comments should say! You pay over paypal and then you tell me the category of you video and il comment it and like. Basicly works like that!

Prices:

20 Likes/comments for 1,5 USD.

40 Likes/comments for 2,5 USD

60 Likes/comments for 3,5 USD

100 Likes/Comments for 4 USD

200 Likes/Comments for 7 USD!

Thanks ?

In my old thread i had some vouches. If i want to go there to check them out that would be appriciated :)

I give you advise that no body will buy your service because it is so fking expensive =]]

I agree with huyenluv, This service is VERY expensive and for 7 dollars usd you could get well over 1000 likes/comments from most any other YouTube service on HF
