"Account has been disabled" Got that when I logged in. But something like this was found a while ago. You could get 5+ emails from same person doing lek3w.ewgk@kwej.oek

Stalley - July 12, 2011, 7:43 am

thats old,

you can even do:

mike+facebook@gmail.com (whats after the plus + is been ignored, you can use this as a monitoring tool... to see who turn your gmail address to spammers)

cheers!

nck0099 - July 13, 2011, 1:51 am

Pseudonym - July 13, 2011, 3:40 am

Old. And the plus sign trick is missing. Refer to
