Thread: [How to remove tracks on a computer. Huge ebook on deleting your e-tracks \[PART 1+2\] \[18 PAGES\]\[Made by me\] \[NO PMING\]](#)

Sweat Heart - July 13, 2011, 9:09 am

Hello Lovely Members!

Hello you all, I wrote another e-book. I put the first ebook in this thread as well.

Also this one includes many spelling errors, but yeah it's understandable.

?This is written for Windows.

I will be working on another guide, with more info!

The second E-book includes:

- ? Tracks, log files.
- ? Anon-browsing
- ? Meta-data
- ? Securely deleting data
- ? Online private information
- ? Completely wiping a computer Derik's Boot and Nuke
- ? Making your online-profile DOX secure

The first E-book includes:

- ?Incognito browsing
- ?How to remove your history the best way
- ?TrueCrypt, encrypting your data
- ?Remove 'last used' files
- ?Explain why to remove cookies

HOW TO GET THIS:

The second part!

Another thing I really like about it - it has nice unobtrusive design. Someone would say what's so great bout it? But after I saw

on this forum so many books with 'fancy' graphics and colours which make your eyes bleed if ya read it longer than 30 seconds, I can really appreciate it.
