Ub3r or L33t upgrade: Ub3r Upgrade

Age: 16 Year's old

Total Online Time: 2 Weeks, 2 Days, 8 Hours, 58 Minutes, 14 Seconds

Height: 5'11

Weight: 146Lbs

Gender: Male

What have you contributed to HF: I haven't been as generous as I would like to be due to not having income at the moment but I will as soon as can find a job and be able to add funds from my bank account to paypal.

Favorite HF Smilie: ?

Role Model in real life: My Uncle. He has taught me many thing's due to my father leaving my mother when I was 1. He was my "dad" basically.

HF Role Model: Defcon Baws. He bought me Leet Upgrade and I want to do that and be generous like him :)

Long exaggerated ESSAY of why I should upgrade you: I am a really caring and generous person when I am able to be. I am always courteous to member's despite being new to HF or not. I treat member's all with equal respect and try not to have something to put against them for me not to like them. I was upgraded to leet but I would really REALLY like to be Upgraded to Ub3r as well due to me being polite to other's as well as giving thing's to member's (I have given thing's to you as well.) I

wouldn't abuse being an Uber member like few do and would still treat people with respect. I have also been accepted by Omni for upgrade to Uber as well before I was Hf L33t so I am already available to be upgraded from there.

Anything else you would like to say: I hope I can be picked for an upgrade, this is a great contest your doing. Good luck to everyone else applying.

Next time you go to disneyland invite me, I'll make it worth your while, just make sure you upgrade me to staff first.

Thanks for reading my exaggerated essay.

Anything else you would like to say: Thanks for this amazing chance to be staff. I was going to give omni \$500 for it, but I am gonna have to wait and see if you will upgrade me first, even being a mod of the xbox section would do.

What have you contributed to HF: I've contributed mangy details posts to the MineCraft sections. I've written essays for guides, my favorite maps and such. And hosted give aways for 4 Minecraft Premium Accounts. I have shared my tastes with th music section, and to the graphics section. I love this forum and have dedicated all my days for the past week or so to it.

Favorite HF Smilie: ?

Role Model in real life: My Father. He's a great man and always pulls through for me. He's helped me in my toughest times as well. . .

Long exaggerated ESSAY of why I should upgrade you:

I realize I haven't been apart of the forum for very long. Therefore I understand any finalization you may have upon my request. I would love to have UB3R though. In the few weeks / month or so I've been apart of the forum, I've been actively contributing (Mostly to the Minecraft section). I've written guides, given away MineCraft accounts, gotten signatures done, and even paid for L33T in the short amount of time I've been here. I absolutely love this forum, everything about it. I love the humorous and mature people, I love how they react, and I love everything the forum has to offer. It is really my go-to forum for everything I need. The community is just like me, they like me for the most part, and I like them back. I make this point to say that I would be good to the community if I were given Ub3r. I am a mature user, I do not flame or rage at all, so the higher reputation giving and taking permissions would never be abused. Ub3r would also let me use parts of the forum I've been interested in using, and people would take my giveaways / businesses more seriously. Ever since I join this forum I've been contributing, but in the past few weeks, I've been expanding to all over the forum. I feel if you were to give me Ub3r, I would have a little more confidence to venture out to all parts of the forums, making my life better, and the community's. So that is all I have to say. Once again, I haven't gotten to show you, nor the members of the forum that I have responsible and mature. Though I can assure you I am. So any choice you make is final and I respect it.

HF Role Model: Ambiguity.

Anything else you would like to say?: This is an amazing forum, easily the best ever. Loosing this contest will not in the slightest way change my mind, good luck others!

Long exaggerated ESSAY of why I should upgrade you: I would like to be upgraded because I have been a member of this site for quite some time and I have always wanted L33t but don't have money or anything, I have entered many contests and never won any. I also want L33t so I can go to the VIP section and see what that is, I feel I could give stuff back to the people that have been nice to me for the time I have been here. Also I will make tuts if I get this because it will motivate me to give back to the other members. I can help people with a variety of stuff and I will donate if I ever get money in my PayPal which I doubt will ever happen but you never know. I'm kind to everyone, I never troll and I'm very respectful, I try to be as HQ as I can be. I want to +rep the people that have helped me in the past and give back to the people who were nice and kind to me when I just got here.

The last most important reason I want to be L33T, is to close threads.. That would be so helpful and amazing!

Also, I will keep your name in my Sig for lifetime<3

Long exaggerated ESSAY of why I should upgrade you: I believe I should win this upgrade because I have helped lots of people on hackforums with their problems on setting up RATs, cracking WEP passwords and what not. That's what's all about. While I was in the RAT's crew I have given free installs, helped members make their RATs, how to get victims and remove RATs. I have recently made a few signatures just to show my generosity and I think it was time to contribute to hackforums. I'll make some more signatures later on this week, so don't worry about that. I personally believe that me wearing the HF 1337 badge will motivate me to post more, be more active and of course help members.

Long exaggerated ESSAY of why I should upgrade you: I know I haven't been on this site for long, but I know that this is a forum that interests me a lot. I will be extremely active and a productive member of this forum, I probably don't seem like I deserve it as much as other people but I'm just giving it a shot because it doesn't hurt right? I know I haven't contributed much for the site but I've only been here for less than a month but still manage to give out + help as best I can, Upgrading me only gives me more will power to do better and give more for the site and those in need. Guess this isn't too long of an essay but it's worth a shot.

Anything else you would like to say: I won't regret upgrading me if you do consider :D. Very thankful for these kind of opportunity!

Long exaggerated ESSAY of why I should upgrade you:

I realize I haven't been apart of the forum for very long. Therefore I understand any finalization you may have upon my request. I would love to have UB3R though. In the few weeks / month or so I've been apart of the forum, I've been actively contributing (Mostly to the Minecraft section). I've written guides, given away MineCraft accounts, gotten signatures done, and even paid for L33T in the short amount of time I've been here. I absolutely love this forum, everything about it. I love the humorous and mature people, I love how they react, and I love everything the forum has to offer. It is really my go-to forum for everything I need. The community is just like me, they like me for the most part, and I like them back. I make this point to say that I would be good to the community if I were given Ub3r. I am a mature user, I do not flame or rage at all, so the higher reputation giving and taking permissions would never be abused. Ub3r would also let me use parts of the forum I've been interested in using, and people would take my giveaways / businesses more seriously. Ever since I join this forum I've been contributing, but in the past few weeks, I've been expanding to all over the forum. I feel if you were to give me Ub3r, I would have a little more confidence to venture out to all parts of the forums, making my life better, and the community's. So that is all I have to say. Once again, I haven't gotten to show you, nor the members of the forum that I have responsible and mature. Though I can assure you I am. So any choice you make is final and I respect it.

HF Role Model: Ambiguity.

Anything else you would like to say?: This is an amazing forum, easily the best ever. Loosing this contest will not in the slightest way change my mind, good luck others!

HF Role Model: Everyone and no one, I try to learn the best of everyone and ignore the bad.

Long exaggerated ESSAY of why I should upgrade you: I think I deserve to get L33T because I'm doing my best to help the community on a daily basis both with GFX which is my specialty and what I do for living and with hacking which is a hobby that I continue to learn and help out with what I already know. In contrast to most of the members of HF I'm 22 years old, living on my own apartment and I'm not funded in any mean by my parents which is why I cannot afford buying things online even though I really like HF and contributing to this amazing community.

I contently help people out with GFX (Signatures, banners and other works) free of charge and a few days ago I have made a big giveaway of shells for booters for the community.

I really hope I get chosen because it means a lot to me.

Anything else you would like to say: I'm 22 years old which is quite older than most of HF members. I maintain myself, paying rent for the house, gas for the car and everything around by working as a GFX artist. I really don't have the money to upgrade myself to L33T and even if I wanted by credit card given by the bank won't let me do international transactions. It will really mean more than just and upgrade to me.

[*]Long exaggerated ESSAY of why I should upgrade you: I deserve this upgrade because; I really do want it, and I do come on this forum a-lot and try to help members when I can. If I get this upgrade I can help people much more because I'll try be a more HQ user and be more known, etc. I'd also enjoy repping helpful members so they can be more known, etc then maybe a day a member will upgrade them because of all their helpful things.

Also, I didn't post how I want this upgrade because I always help people, make tutorials, have contests, etc for them and I deserve more which other people do often in their post when someone's upgrading someone and kiss the person that's upgrading ass.

But, I'm not saying I don't help people, and make tutorials, and have giveaways because; I do (Well sometimes on whatever knowledge I know that involves anything on this forum). But I don't really care for anything back because I "actually" do enjoy (for some reason lol) people which helps them improve, etc.

Even though I did say I don't kiss the user that's upgrading's ass, but I do like to thank you for making this upgrade which will be helpful for the person who wins.

And I do know I don't have a-lot of rep, but it still doesn't make me a bad guy, but like I stated above "I try to help people when I can".

Things I'd like to do if I get upgraded:

Lock my threads just in case things get out of hand

Rep people so I could show the person who I repped is a helpful member[/b]

I can help people with a variety of stuff and I will donate if I ever get money in my PayPal which I doubt will ever happen but you never know. I'm kind to everyone, I never troll and I'm very respectful, I try to be as HQ as I can be. I want to +rep the people that have helped me in the past and give back to the people who were nice and kind to me when I just got here.

Long exaggerated ESSAY of why I should upgrade you: I don't like to post, the only reason I am trying to get to 300 is for my dreams of getting into a usergroup. But other than that, I would still be sitting at around 100ish posts. I take time before posting(usually) to see if this would spark any type of conflict, but I do happen to love a good debate. But those are 2 different things. I do not have a lot of rep, for the reasons stated above. I am not "radical" enough to receive reps from just posting. But not giving enough to get them from giveaways. So far my only reps are from a contest, being nice and being nice. And I'd like it to keep it that way. Sure I wish that 7 could be higher, but I don't think it really matters. So please take me into consideration. Good luck to everyone participating and thank you for holding this.

Long exaggerated ESSAY of why I should upgrade you:

First of all, i would like to thank you for posting the contest and I would like to wish the best of luck to everyone else. So I believe I should be upgraded because I have nearly all positive rep, I think I am a hq member, and I would do a lot with my membership.

So, moving on to my rep. I have a little bit of rep, nothing compared to others but I think its a decent amount for someone of my standing. But although I don't have a bunch of rep, I have nearly no neg rep. The only neg rep I have is from someone who wanted me to go first in a trade. I declined so he of course accused me of scamming and left me neg rep. His account was latter named dead for abusing his ub3r powers (or at least this is what i heard)

My HQ ness, I try to make all of my posts count, I have a few posts that were reported, however they all came from a simple mis-understanding that I now know about and warn others about (asking for VOUCH copy's of ebooks) I always try to help out others when I can lend good advice, and at the same time I don't lie to people about things that I don't know. If i don't know anything of help, I try to redirect people to where they can find help.

Last but not least, what would I do with l33t? I would post helpful ewhore tuts in the vip forums, along with offering my ewhore mentoring. I would try to contribute as much as I take, I dont like to be a leach, I like to help when I can, and I will do this to the other upgraded members (and normal members)

In conclusion, I think I do deserve l33t, I am sure there are others on this thread that deserve it, but I have taken a lot of time in my application and tried to give you the best vision of me. So thanks for reading my essay! ? (an intro paragraph, 3 body paragraphs and 1 conclusion paragraph)

Anything else you would like to say: My teacher once said an essay is like a girls skirt, it should be long enough to cover the important parts, but short enough to keep it interesting.

Long exaggerated ESSAY of why I should upgrade you:

I think I should be upgraded because in the time I've been here I've remained HQ. I contribute to discussions where I can, help when I'm able and offer input and assistance when necessary, I don't have a lot of posts or a very high rep, I still feel that I am a good member. I'm kind and respectful to members new and old alike and I am welcoming and helpful to newer members when they require assistance. I had contributed to hf in many ways like setting up booters botnet etc, I had also help out throughout various areas of the community offering my help both knowledge wise or by means of emotional support. Also, the only way I'll be able to upgrade to Ub3r is if someone sends me the money or I win an upgrade contest like this.

Anything else you would like to say:

Thanks for this amazing Contest Good luck to all participants.

I have been most active in the RATs section and have helped lots of people there with their RATs by answering their questions and trying to get their RAT to work or giving them slaves to test or port forward for them. Long exaggerated ESSAY of why I should upgrade you: Ahem.

Dear Xerotic,

I think I, Rebecca Black, am obviously the greatest choice to receive this upgrade because I, Rebecca Black, have achieved many, many great, courageous things on HF. I've explored the darkest pits of the troll-caves in the religion sections; journeyed to the sexually confused innuendo cities, and slain many foes like no other in the Member Contests gatherings. I am a true warrior of HF, and I feel you, Xerotic, the <<<<insert flattering/dick sucking adjective here>>>> should know more about me.

There was a beginning. It was a cold, dark beginning to a rough journey, where everything was unknown. Soon, my eyes began to adjust to the faint light of the new world I'd discovered, and I found myself lusting for more of it. It was an icy world, full of savages, beasts, and occasionally a wise traveler to help you along the way and offer you a Pheonix Down.

This beginning soon opened up a mystical place for me, as I became more experienced, moving up in the ranks of the world, I started exploring past the depths of my shelter, discovering new, unheard of before areas of the world where many other lost travelers gathered for various reasons; this would be known as "The Middle".

Alas, "The Middle" is still a phase which is happening to this day, as "The End" signifies the end, and why would I want a user upgrade if I was leaving? That's just illogical.

TL;DR: I am an HF warrior from an icy planet, fear me, love me, upgrade me.

Love(unless I don't win),
R.B. Rebecca Black.

Anything else you would like to say: Xerotic needs to upgrade Rebecca Black on Friday. That is all. PCE
