Why would you want to give me money, when you are trying to gain money yourself?

- I wouldn't be surprised if some members wound up in trouble with the authorities. (Involvement of CC's from a stranger promising you free money in return never works out, with the exception of Nigerain royalty in need.)

well because its a two sided profit, i will give u all the things that are required to complete the offer, if u dont want money easily, then i got nothing to do!
