Thread: [Free iStealer Hosting \[Offshore Hosting\]](#)

Shot Caller - July 17, 2011, 5:37 am

Hello I will host your iStealer for free on my website, I currently only have one but I have unlimited bandwidth and databases.

If you want me to host one for you [I don't need the logs or anything, just helping the community] just PM me or post below, thanks and hope you get a lot of logs if I do host it for you :)
