Penthos - July 19, 2011, 5:20 am

Thanks Ultimate Coder As usual working a treat :P

And looks wicked, Good Work :)

Oh yea and i and many others can vouch for this guy, their are no backdoors here.. Just quality coding, trust me i have see source, its dam GOOD :P

EDIT: Confirmed Working With Dark Comet!

xmubzx - July 19, 2011, 5:26 am

I will pay you \$1 for the link?

With - July 19, 2011, 5:29 am

Where is the download link? I have to decrypt the text to get the link or is that for the pass, please PM me link if possible. Thanks in advance :).

devilpsn - July 19, 2011, 5:30 am

Thanks for the share mate and password is easy to decrypt...

I have no idea how I unencrypted the okto3 I think with another site then crypto, but if I do this:

1. Browse, select my server.exe
2. Click couple times on generate
3. click crypt enter lala.exe

what am I doing wrong?

Can you explain what your actually trying to do??

If you already have the password for the rar file, you no longer need it.. Just use the Crypter.. .
