Thread: [anime is boring now, in need of help asap](#)

Charismatic - July 20, 2011, 4:08 pm

So as many of you know I'm rather a freak when it comes to going all out on anime. I have spent close to \$50 000 on anime related products, travel etc.. but guys im bored... im bored to the shitter, There are no new anime out that can re kindle my love for anime like hellsing, CG, FMA and the classics did. Now don't get me wrong anime is the same as it always has been an i think that's the problem... There is nothing new, nothing exciting, nothing the sexually arouses me like Death note did. It is just so boring, they need to bring out a new exciting anime... or if they are really desperate extend on anime like rurouni kenshin. I have seen around 700 different anime series and I am bored. Can any of you relate.... cause I am bored and hell if any o you know any wanime that i might not have seen then post it otherwise I just do not know what I am going to do for 16hrs aday without anime

So I suggest you start from the top and work your way to the end instead of complaining about what people suggest. <http://www.anime-planet.com/anime/all>

Wait so ,
not working = not socializing ???
not working = die of heart disease ???

This is the kind of logic (if you can even call it logic (pshhh)) your average retard would look at and not question.
King of the sheeple??

"OOOH :x: IS NORMAL, NORMAL IS GOOD. I BETTER DO :x:."
You idiots really need to start thinking for yourselves and doing what you want to do, not what you're "supposed" to do. But hey, you faggots do watch loli, I guess that's a good start.

I see your logic. It is important to do what you want to do. (Thats why I'm moving out of country after college.)

There are some people content with doing the norm, though; albeit not many. To each their own. Just make sure your happy lol.
