Thread: [\[SourceCode\] ConsoleApp Pinger](#)

The-One - September 21, 2009, 11:36 am

Hello HF!

Version Used : Visual Basic 2008

My i whas doing some things with some codes and this is what came out ;P

Code Imports System.Console

Imports System.Net

Module Module1

Sub Main()

Start:

```
Dim h As System.Net.IPHostEntry =  
System.Net.Dns.GetHostEntry(System.Net.Dns.GetHostName)  
WriteLine(" ")  
Console.Title = " The-One's Host Pinger"  
Console.ForegroundColor = ConsoleColor.Green  
WriteLine("[ " & TimeOfDay & "]" & " Created by The-One, For the better host pinging")  
WriteLine(" ")  
  
Console.ForegroundColor = ConsoleColor.White  
Write("[ " & TimeOfDay & "]" & " " & h.AddressList.GetValue(0).ToString & " [This is YOUR  
Host]")  
Console.ForegroundColor = ConsoleColor.Green  
WriteLine(" ")  
  
Write("[ " & TimeOfDay & "]" & " Write the website name : " & vbCrLf & "[ " & TimeOfDay & "]" &  
" Example: www.website.com" & vbCrLf)  
Console.ForegroundColor = ConsoleColor.Cyan  
  
Dim Host As String  
Host = ReadLine()  
Dim hostname As IPHostEntry = Dns.GetHostEntry(Host)  
Dim ip As IPAddress() = hostname.AddressList  
  
Console.ForegroundColor = ConsoleColor.White  
Write("[ " & TimeOfDay & "]" & " The ip of " & Host & " = " & ip(0).ToString() & vbCrLf)  
Console.ForegroundColor = ConsoleColor.Green  
Write("[ " & TimeOfDay & "]" & " Thank You For Using My Application." & vbCrLf)  
  
Console.ForegroundColor = ConsoleColor.Green  
Write("[ " & TimeOfDay & "]" & " Want to move on? 'yes' (Else hit a random key to close!)" &  
vbCrLf)  
Console.ForegroundColor = ConsoleColor.Cyan
```

```
Dim MoveOn As String
MoveOn = ReadLine()
If MoveOn = "yes" Then
    GoTo Start
Else : GoTo Quit
End If
Quit:
End Sub
```

End Module
