Tutorial how to Delete Terminal History / Author Anonymous.7654

Why i created this Tutorial?

Most peoples who using Linux know this method, but i want help Linux Begginers, so i want create Little Tutorial about this.

So how to delete Terminal history?

Part I

First open Terminal. Now type "sudo gedit ~/.bash_history" you see many commads in TEXT Docoment, so detele all text and save, now you deleted Terminal History

Tutorial " Part I " Dont work? Read this

Part II

Come to your Home Folder, click "View" and click "Show Hidden Files"

Next

Now find file " .bash_history " And Open with Text Editor and delete all commands inside, and click save. Now you can close

Now you deleted all Terminal History

Short, simple, and sweet. Nice guide; this is bound to help a couple members.

Amzo - July 23, 2011, 11:39 am

Code `rm -rf ~/.bash_history`

I just summed up your entire post

I just summed up your entire post

We could also do this for the lulz

PHP Code

`<?php`

`srn -vz ~/.bash_history`

PHP Code

`<?php`

`srn -vz ~/.bash_history`

Or we could recursively `../..../` to root with

PHP Code

`<?php`

`srn -rv ~/.*`
