This is fully working, the download is below with instructions.

Download to the Adf.ly Bot: Click [HERE](#)

Download to Proxy List: Click [HERE](#)

Download to Refer List: Click [HERE](#)

- 1) Get around 10-15 Adf.ly links and paste them in your link section
 - 2) Copy and paste all the proxies provided
 - 3) Copy and paste all the refers provided
 - 4) Click start and then your views will update after a while
- Bot was made by MOSH at Thebotnet

lucz0r - July 25, 2011, 2:17 am

going to test it if works i will update this post to tell it works ;)

Update: can't change the addresses to click on ;)

patton319 - July 25, 2011, 3:25 am

so dosnt work??

wurzil1975 - July 25, 2011, 3:32 am

Mhm, does not work.

Spoiler ([Click to View](#))many many penises on a bus

Shot Caller - July 25, 2011, 4:48 am

How does it not work, you just don't know what you are doing.

ISOForest - July 25, 2011, 7:11 am

Just doesnt seem to do anything

Versa Life - July 25, 2011, 1:22 pm

Im am actually gonna bother to try this.. however one thing i will never understand...If someone is posting a working adf.ly bot then why are you still using adf.ly in your links?

EDIT: Doesnt do anything at all

rajuonline - August 21, 2011, 7:25 am

EDIT: Doesnt do anything at allwow super word my frnd.
this bot is not working so dont waste time to download this.

SIM-812607 - *August 30, 2011, 5:21 pm*

does not open when i extract it but if i open it direct from the archive it opens :S

SIM-955290 - *September 5, 2011, 10:52 am*

Hope this works, will be testing later :)

SIM-590811 - *September 5, 2011, 1:21 pm*

This program dosent open in sandboxie either.

Download with caution
