Kyle FYI™ - July 26, 2011, 4:04 pm

ok then I need a new partner for FYIBooter.

This is what you need
A Verified paypal
Know stuff about booters
Know a bit of php/css

Just fill in this

Code [color=#00BFFF]Name?[/color] type here

[color=#00BFFF]Age?[/color] type here

[color=#00BFFF]Were do you live?[/color] type here

[color=#00BFFF]Do you have a verified paypal?[/color] type here

[color=#00BFFF]Would you keep the money from the booter in your paypal?[/color] type here

[color=#00BFFF]Would you be fine with 30% of profits?[/color] type here

[color=#00BFFF]Why should I pick you?[/color] type here

[color=#00BFFF]What makes you trusted?[/color] type here

The reason its 30% of profits is this

Me = 30%

You = 30%

For shells = 30%

Hosting = 10%

Need to ask any thing else post or pm me.

Why should I pick you? I don't want payment, just to make a successful booter. What makes you trusted? I have done a few successful deals. I have the jeejeepower booter source (the sexy ass white one), and I coded a crypter (Not sure if that matters in this case)
