Thread: [\[RELEASE\] TeamViewer VB.net Theme](#)

?eumonic - July 29, 2011, 11:28 pm

In anticipation for Thief3, for those of you who have heard about it, I decided to release a VERY small theme that I created before I release Thief3, which is being released tomorrow. It is a minimalistic theme that is based more around flexibility than customization. It is also the first theme I have seen that is designed to run with a FormBorderStyle, as opposed to none. Anyway, here is a screenshot and download. It ONLY includes the theme, not any buttons.

Cody8295 - July 29, 2011, 11:28 pm

Looks almost exactly alike, nice job there.

Shots™ - July 29, 2011, 11:28 pm

Nice great release, I'll see what I can do with this.

Will and Integrity - July 29, 2011, 11:29 pm

Pretty similar, good job. You're missing the glass slashes or whatever it's called though.

?eumonic - July 29, 2011, 11:31 pm

I am aware, but this was designed with flexibility in mind. I wanted to get the general look without making a theme that was a replica, so that it could be used for anything.

Cody8295 - July 29, 2011, 11:33 pm

You should make the tab control/text box as well.

Will and Integrity - July 29, 2011, 11:35 pm

I gotta ask.. What will you be using it for? Sorry for sounding nosy, but I'm just curious as to what it will be used for.

?Demon - July 29, 2011, 11:53 pm

Remote Administration Tool like Teamviewer, not like noobs infecting other people. =D

May I suggest a custom toolbar?

If you see where Lul is, you'll see that it doesn't fit the colour scheme.

<http://prntscr.com/2gv07>

I think you should definitely take this further.

I think you should definitely take this further.

I would definitely do a custom toolbar, assuming I knew how, but I don't have the time as of now. My suggestion would be just to change the back color of each toolbar item to a lightish blue and the foreground color to white. It won't be EXACTLY perfect, but you can't get much closer.

?Demon - July 30, 2011, 12:02 am

I'll try find the exact colour you used. You should really work on this project further!

?eumonic - July 30, 2011, 12:46 am

(Jul 30, 2011 12:02 AM)?Demon Wrote: [\[CITE\]](#) I'll try find the exact colour you used. You should really work on this project further!

I might continue further with this after I release Thief3 tomorrow, but right now, I have no intention to do so. Especially since it is 2:45 AM right now.

If, after I release Thief3, people still want to see this, I will take it further.

?Demon - July 30, 2011, 12:56 am

Oh well. Anyway I can take the rest from the basic theme so it's fine. =P

I figured out one way of getting the effect:

<http://prntscr.com/2gvee>

?eumonic - July 30, 2011, 1:37 am

Am I crazy, or is that a gradient inside the box?

~Zero

?Demon - July 30, 2011, 2:13 am

Yes, yes it is. I took a screenshot of part of the theme and set that to its background image.

Sometimes you must get creative. =D

?eumonic - July 30, 2011, 2:16 am

And very creative it is! I thought I was going insane for a minute! That is definitely a good look for the theme. Good job!

Jeff. - July 30, 2011, 2:24 am

Thats a pretty looking theme :) mate. Good job and keep it up !

RiperFish - July 30, 2011, 2:42 am

Damn, this perfect dude, great JOB.

~~((HACKER))~~ - July 30, 2011, 5:12 am

Nice work 'Z3RO', I like it.

RON6566 - July 30, 2011, 5:30 am

Thanks! Loved it :P

Tooo....

Prosecute - July 30, 2011, 5:33 am

Nice theme you released there, it really does look just like the TeamViewer theme!

Chunked - July 30, 2011, 5:35 am

Very nice one, will definitely be using this.

0153R - July 30, 2011, 6:13 am

great job i search for a teamviewer theme and found now a theme
ty dude ;)

PURP - July 30, 2011, 8:14 am

This looks really good man!! :)

Tedd - July 30, 2011, 8:43 am

Looks great bro! Can't wait for another one!

Abis24 - July 30, 2011, 8:46 am

I wish this came out sooner I could have used it on my remote desktop :/

Slaughter. - July 30, 2011, 7:13 pm

Fucking amazing theme here looks exactly like it.

?eumonic - July 31, 2011, 9:47 am

When I released this theme, it wasn't meant to get this big. Seeing as how people, namely ?Demon, want it expanded on, and I have nothing better to do with my time for now, I suppose I will make it bigger. Let me know what parts of this theme need expanding on and I will work on it. :P

FileX - August 20, 2011, 5:18 am

I was just wondering.. Are you working on the theme? It looks awesome.

Warchief - August 20, 2011, 6:53 am

Nice Share dude,i will try it

Too short

?eumonic - August 20, 2011, 7:31 am

(Aug 20, 2011 05:18 AM)FileX Wrote: [\[CITE\]](#) I was just wondering.. Are you working on the theme? It looks awesome.

Not currently, I am not. I am working on releasing Flssion. I suppose I can get back to this when I release it.
