FREE Service

Title: [\[FREE\] \[XRumer Blast\] \[2,500 Backlinks\] \[2,500 Pings\] \[Dominate Keywords and Make Moolah\] \[Value: \\$15.00 USD\]](#)

About this Service:

A couple months ago, I purchased XRumer which is a back link software that creates back links for websites, and I started monetizing with it by ranking some of my websites. After ranking some of my websites and adding affiliate products from eBay, Amazon and Clickbank onto them, I made a fortune. From that fortune, I expanded my affiliate sales by creating more websites and ranking them...and now...I have over 13 websites that are racking in \$300 - \$700 a month each. I treated myself with a vacation to Thailand (2 weeks there in a condo near a beach) and a new car, but I was still not satisfied, so I decided to treat myself to some more goodies. The next day, I went to Best Buy to get a new computer for myself (i8 with 8GB DDR3). While driving home from Best Buy, I got a ticket for speeding and went to trial court for my ticket. At the court, I was presented a \$450~ fine (no biggie) and community service for 30 hours (WTF). I paid my fine and started community service the following day. I went home from community service happier than ever. I found out that money was only happiness to a certain extent and that helping people and receiving thanks was what made me happy. Without further adieu, I am going to provide FREE Xrumer Blasts.
