Thread: [?Exploit Pack?Selling Crimepack 3.1.3 Accounts/setups?Java Drive Bys?Starting at \\$3?](#)

ZemilirKovac - August 1, 2011, 3:13 pm

Hello All,

I am currently selling Crimepack 3.1.3 Accounts/Setups.

Here is a little of what it looks like and some proof,

[img]http://img191.imageshack.us/img191/1139/proof1g.png[/img]

[img]http://img843.imageshack.us/img843/7508/proof2u.png[/img]

I will provide hosting and the setup and an account.

I am also selling my FUD Java Drive By. I can provide hosting for that too if needed.

Prices:

Crimepack 3.1.3 hosting, setup, and account: \$8(20% off!!)

Java Drive By(Jar and html file): \$3(40% off!!)

Java Drive By(Jar, html file, and java source) + Hosting: \$5(37% off!!)

OR

Trade Installs for my products/services:

Crimepack 3.1.3 hosting, setup, and account: 300 installs

Java Drive By(Jar and html file): 100 installs

Java Drive By(Jar, html file, and java source) + Hosting: 200 installs

When I say hosting, this does not mean you get a hosting account, this simply means I provide the hosting for you to host it on and I will upload and install everything for you.

Rules:

1. No charge backs/Disputes
2. No Publishing the hosts
3. No reselling
4. If trading for installs, NO BOTKILLING!

If you are interested, POST HERE FIRST PLEASE and then pm me and I will be glad to help you.

If you are looking to grow a botnet or RAT then this is a great way to grow your number of victims at an affordable price!!

Kind Regards,

YoGeneral

UPDATE, I DID A TEST TODAY ON 450 WEB USERS, HERE ARE THE RESULTS:

[img]http://img84.imageshack.us/img84/4562/proofer.png[/img]

27 PERCENT INFECTION RATE! I do not guarantee that you will get 27 percent, it's very dependent on the traffic, some say to get as much as 40% and some say as low as a few percent. So make sure you have high quality traffic, traffic with older OS is better.

Crimepack is out dated it does not work the exploit's are very old they have already been patched this will maybe get a 4% exploit ratio if that. And it does not work on Win7. Not worth the money if you actually want a good exploit kit and have money to spend buy Blackhole I resell spots for it :) .
