Quote:This review is from: Creating Web Sites Bible (Paperback)

'Creating Web Sites' is a perfect book for anyone interested in learning how to make a website, whether you are a beginner or an expert.

The book is very well organized from the beginning till the end. It gives various user friendly "step-by-step" tutorials as well as great "review" for experienced users.

I highly recommend this book to anyone interested in creating websites for it is a very well written, well arranged guide to success.
