Nothing to complex going on but they are nice. You have to start somewhere and learn the basics. Good combination of colours on the first orangey one.

their nice? LoL im sorry but im not gunna lie. need to make this kid MUCH better. No blending wut soever. the 1st 1 is orange with black text. Makes sense. The brush work is horrible

The 2nd one, wow sum1 actually used the rainbow overlay tut? Id recommend not using that again. The text on the fatty is lol not blending.

Horrible Brushwork, Generic Text, And No Blending

Better luck next time ;)

With your text you could just do a soft overlay that would make it look better, dont use brushes until you know how, play around with renders, C4D's and stuff 1st :D just trying to help you out, Send me a PM if you want me to write a short tutorial for you :D
