Thread: [How can i make password cracker here...](#)

rAtoN - August 2, 2011, 9:38 pm

Hi I read this tutorial of

<https://hackforums.net/showthread.php?tid=1138068>

Password cracking

But there dont work

On taringa.net any idea?????

????

i think

You can post something here

taringa.net/login.php

SoulZeh - August 2, 2011, 9:45 pm

here is a link for you

<https://hackforums.net/search.php> sure helps alot of people

rAtoN - August 2, 2011, 9:57 pm

Lol i need to find taringa.net login system and what to post

SoulZeh - August 2, 2011, 9:58 pm

Are you new to programming in vb.net?

rAtoN - August 2, 2011, 10:03 pm

~ I code noobs thinks mailbomber filepumper i will start more harder things

SoulZeh - August 2, 2011, 10:07 pm

Well password crackers ain't that hard but dont copy/paste source code or you wont get nowhere go on and make it yourself

rAtoN - August 2, 2011, 10:09 pm

Yes but in taringa.net is not easy there is not posting method there is like cookie??

Any idea

SoulZeh - August 2, 2011, 10:19 pm

There is properly methods, there is methods for everything these days Just a little time on google,youtube and i think the best thing for to steal peoples passwords for a site like that is using a stealer or something

StarZ - August 2, 2011, 10:28 pm

Try some of these things first:

<https://hackforums.net/showthread.php?tid=1286261>

Then move to more advanced stuff. Password crackers aren't hard to make, They just require time and know-how.

I need to know where is the login post method

SoulZeh - *August 2, 2011, 10:42 pm*

for the login post you need to know php to run through the Source code on the page
you need to learn php to find the login
