Thread: [?FUD Java Drive By?Java Drive By Hosting?Paypal Only?](#)

ZemilirKovac - August 5, 2011, 7:37 am

Hello All,

I am currently selling my FUD Java Drive By and I am hosting them also.

Prices:

Java Drive By(Jar and html file): \$2(For first 5 buyers then it will be \$3)

Java Drive By(Jar, html file) + Hosting: \$5(For first 5 buyers then it will be \$6)

OR

Trade Installs for my products/services:

Java Drive By(Jar and html file): 100 installs

Java Drive By(Jar, html file) + Hosting: 250 installs

I will also sell my source but you must contact me to work out pricing.

When I say hosting, this does not mean you get a hosting account, this simply means I provide the hosting for you to host it on and I will upload and install everything for you.

Rules:

1. No charge backs/Disputes
2. If trading for installs, NO BOTKILLING!

If you are interested, POST HERE FIRST PLEASE and then pm me and I will be glad to help you.

If you are looking to grow a botnet or RAT then this is a great way to grow your number of victims at an affordable price!!

Kind Regards,

YoGeneral
