Thread: [Free iStealer or Logs Panel Hosting, Setup and Logs Movement For All \[Updated Thread\]](#)

bodla - August 5, 2011, 10:20 am

Dear users,

As some of you know i had started giving free iStealer hosting to many people in past but due to limited quota i given up that. Now i got a new hosting and i will give free hosting for your logs. i'll also setup for you if i got free time.

This time i come up with soem conditions:Reputed members only.

Preference for those who lost their logs using other hosting (like 0001webhost etc.)

If you want to try it, move away. This program is not for testers but to help hackers.

Free Logs transfer/movement for ub3rs or l33ts. (can be free for ordinary members also).

I'll give you:

A Free domain/subdomain.

Free Hosting.

Free setup.

May be Free Database movement.

All brothers interested in availing that, send me following things along with PM:
Desired domain

Stealer php panel (if you have some stealer other than iStealer.. e.g lucifer stealer etc.)

Desired username and password

My msn is adeelbodla@hotmail.com. you can get me there also.

Please, I need a free IStealer. Does it steal new browser versions and microsoft outlook?

Can i also get the free hosting and free domain?
