Thread: [A proxy that works at school!!!!!!](#)

Olid0 - April 28, 2008, 4:34 am

today at school, as i always do i was searching for proxys that the school didnt block. just as i started to give up i found this!

<https://server.3.kproxy.com/>

if it doesnt work from the adress bar you should search server 3 kproxy.

tell me if it works at your school/work.

matt_familyguy - April 28, 2008, 4:37 am

I went to it and it was just a page with a lot of ads and a search bar?

w0g - April 28, 2008, 4:41 am

The search bar is where you type the banned url isnt it.

Worst proxy ive been to, cluttered with ads.

Olid0 - April 28, 2008, 5:00 am

i know you guys, its cluttered with ads but your only on that page for a few seconds so whats the big deal?

if it works than good right?

w0g - April 29, 2008, 12:01 am

Well sefreak is banned at our school so i have no choise but to use test this one.

Thanks for the link.

Unknown - April 29, 2008, 12:06 am

The proxies I've tried at school SOMETIMES take me to the proxy's page but doesn't let me surf after. I might post a screenshot when I get to school.

I got a better idea. Get a program like I did.
Works perfectly.

I'll give u program for h4x\$ =)

Olid0 - April 29, 2008, 5:03 am

hehehe h4x\$...... i selfish about those things :)

its ok lol i will just look for the program :)

w0g - April 29, 2008, 11:36 pm

Quote:This is a portable proxy that was created in china to bypass there blocking systems. I had found it awhile back and me and a lot of friends have found it really nice to use in school. Get on

Myspace, FaceBook, Ebay, HERE... ahah

All you do is put on flashdrive > put in computer run microsoft word.exe (haha) and then up pops a box and then you can minimize it to the system tray when it connects. It's really nice

The reason it is called Microsoftword.exe is because for awhile we left it as the default, come to find out our school used a process searcher to find the original name and suspended two girls for being on myspace and having a proxy...

Have fun and please seed o atleast 2 ratios... this is a smalllll file haha

Code http://#.org/tor/3706647/Portable_Proxy_-_Bypass_School_Blocking_System

Unknown - April 29, 2008, 11:55 pm

I wanted to see this, but I don't use torrent.
Assuming that because of pirate bay site.

w0g - April 30, 2008, 1:21 am

Yer he also said to go to <http://www.ultrareach.com/company/download.htm> for the direct download.

Also the more new proxies the better

Omniscient - April 30, 2008, 1:30 am

Try filterbay.com too.

olid0 - April 30, 2008, 4:53 am

thanks omni, i will try it when i get to school today.

does anyone know how to delete history at school were they block it?

w0g - April 30, 2008, 4:55 am

Depends on your schools setup

darkstorm4600 - October 18, 2022, 7:43 am

wished this still worked i could use one
