Thread: [disabling cell phone service](#)

fAlex_ - August 6, 2011, 8:55 pm

does anybody know of a way to disable cell phone service within say a 20 m radius or so?..

zlax - August 6, 2011, 9:02 pm

yes thatz what i wana do dude :-)

plzz tell me plzz

eehy heez a genius ehhy man ur cool thankzzz alot !!

fAlex_ - August 6, 2011, 9:12 pm

nice. thank you much! have you ever tried to use this device?..

Code Assassin - August 6, 2011, 9:13 pm

that thing is badass I'm gonna have to pick one up. anyone know of a more reliable site?

zlax - August 6, 2011, 9:34 pm

no i didnt try that on but i found some thing i the basement when i went to the link i was thinking i have some thing like this

Tali'Zorah - August 7, 2011, 7:39 pm

Thats so awesome like a freaking EMP but just kills cell phones...still AWESOME!

Claysurman - August 8, 2011, 12:54 am

That looks pretty cool, but people comments say that it will only work for 1-5 metres.

jakobnator - August 8, 2011, 1:26 pm

You could make one, all it is is a transmitter that transmit the common cellphone frequencies, then it just broadcasts static.
