How many numbers can you do at once?

If more than 1, do you give a discount for multiple orders?

TheJohnDoe - August 10, 2011, 2:07 pm

Right now I can only do one number at a time.

As soon as I see that people are interested in this product I will be adding support to multiple number.

VIRUZ™ - August 10, 2011, 2:09 pm

They already do something similar but not the same its called phone ddos cant remember who does it though but that cuts the phone offline I suppose this is just continuous call after call.

TheJohnDoe - August 10, 2011, 2:13 pm

Cutting a phone offline isn't as annoying as receiving 2 calls a min all day long everyday.
