Thread: [L33T permissions](#)

Of course upgrades are subjected to limitations, but l33t 's limitations are so low. Paying the pretty expensive \$17 which I regretted doing gave me access to certain areas, although I find it unfair we cannot -rep 1 a person. There a many (a shitload) of assholes in today's society (speakingtowards hackforums) and giving neutrals does not really point out the specification of the user. So why is (-1) such a big deal. Heck, I think we should be able to give +2 and -2. Well honestly probably noone will implement this but i want to point it out like you know man I payed some good money for this and yet i dont get a very little feature. Well i feel bad talking about rep because most users really are sensitive, but hackforums is just my material forum where i buy/sell/leech. I dont mean to hurt anyone's feelings but thanks for reading.

Nah i'm not planning to spend a shitload of time here on the forums.

Gets abused easily if L33ts were able to give negative reputation.

And you are wrong. Neutral reputation is a powerful tool against anyone. It's all in the comment you leave there.

Just buy Uber. It's pretty fucking epic. But I do agree, many of the things I thought I could use when I got l33t I can't :(So I bought Uber the next week =p

I am quoting this comment because it represents the truth.

If you are average person leet is a bit of money, to say you are restricted from virtually rating a person is a bit harsh. I have seen very few leet who is abusive while ub3rs tend to be most annoying and stuck up, not refering to anyone in particular or everbody but common semse, get da point.

I already used and explored all features of leet, giving -rep to aholes who deserve it would be great. Im not saying this is all i'm in for.

This is absolutely the worst idea ever..

Leet's had that power but it got abused.

\$19 isn't that much either.

As expected a higher rank member would not give a shit. Sorry, \$19 is a waste of time and money towards hf.

I had a bad feeling posting this anyways as all I would get is disagrees. Closing it on behalf of minority issues.
