Being dragged into the Astronomy Club by Renji's childhood friend, Kureha Akabane on her first day at school, Elis soon realises that she too, has the power to become a Night Wizard.

Review: It was a really good Anime. Probably not a very well known, and not one of the best, but is really good no matter what other people thing. Its great in many terms, can be funny sometimes. The fact that the girls in it are hot is one ^^.

First Impressions: Hmm, new Anime to watch. Not so bad either.

Last Impressions: Was a good Anime, Would recommend to others.
