So, most of you will of seen/heard of us by now (The WongZ) [@TehWongZ](#)

So over the past 24 Hours we have targeted some Major Corporations, got over 3,000 total PasteBin views and made it in the Trending Views with a number of posts.

- <http://pastebin.com/u/charriewong> -

Now for why i did it, i decided to go on a EPIC lulz rampage and PWN there face to the floor because of 2 things, 1: AntiSec (not to bigger deal but ow well) and 2: LULZ, The reason for why most hackers do this, my rampage was different from most, it was targeting high trafficking sites (BBC - #44 on Alexa, and the first time it has EVER been publicly hacked).

I will be working over the next few weeks on more, so keep an eye open for us, we will also be forming a new group/website for you to come and join.

Enjoy - Charrie Wong, of The WongZ
