Please try to use gradients in the button and progressbar. That would make your theme very hot.

Nope I don't mind.

And how do I make this gradient?

SoulZeh - August 12, 2011, 4:01 pm

Added to my theme list and sorry i can't help you best person to ask is Zero,Tedd or Aeonhack, on my thread i posted on this i also added aeonhack's tutorial think that shows you how to add Gradient

Hmm I don't see any that shows me how to add gradient.

Well I just searched and found the code.

Well thanks

You do need gradients, yes, and try to color coordinate a little better. The colors are an eye sore.
