Thread: [\[Free\]\[Hot\]\[No SHitCash\]\[RadioActive Mail Bomber \(Gamma Edition\) \[Last Edition\]\[Free\]](#)

asad3man - August 13, 2011, 11:05 pm

As my Successfull Previous Version of RadioActive Mail Bomber was finished, i got a rest and afterwards yesternight , i started making last version of RadioActive Mail Bomber namely (Gamma Edition)

The name of previous Version was [RadioActive Mail bomber \(AlpHa Edition\)](#) which can be download till, but thats outdated. so i m releasing my new Bomber proudly..??????

There are much features in this Bomber. I will start my Discussion from
Whats new/Features:

Custom GUI (Made by me)

Transparent (Looking Great)

Specially Desgined icon for HF.

Button Pics

Test Mail Button (First Click that button and then it will test send u mail,after it will enable theother Buttons.)

Big Message box(Type Message long as u want)

Borderless form and Movable to any Side.

Mail Direct go to inbox from all Recipient.

Successfully Tested

Bug Fixed

If u found any Bug just fell free to PM me.

Remember: This Bomber is not for leaked, i made this for only HF just.
