Thread: [\[FREE\] Lyoto "San" Machida Crypter Mod V3xD! \[Updated\]](#)

V3xD - August 16, 2011, 7:02 pm

Lyoto "San" Machida Crypter / Modded by V3xD!

This is my first release since my long sleep.. I've modded the stub (JJ.exe) Semi-FUD from 14 Anti-Viruses to revive the crypter. I will be maintaining updates to the stub for aslong as i can. Checkout my website for more! [AntiAV.blogspot.com](#) ?

(2/16)

AVG - OK

Avast - OK

Avira - Infected

Ahnlab V3 - OK

G-Data - OK

? Please reply with a thanks and Enjoy! Also please read the following ?

Remember.. the more thanks i get, the more crypters i release!

Quote:Please Read! : Do NOT upload this to VirusTotal, Jotti, or any other multi-scanner unless its one of those paid-for scanners that don't distribute.

Do not scan this with you own Anti-Virus unless you have gone threw your settings and disabled participation in anonymous usage statistics for they will make your servers/stubs detected!

I use no online multi-scanners since NvT has failed. Don't put all my work/time in vain because you dont know how detected it is. I will maintain scans and updates on the front page of my thread myself, if you are worried about the detection rate, please don't. I check the detection rate EVERY DAY. If i haven't updated my thread then you don't need to worry!

If i left any Anti-Viruses out, please let me know which ones and if its detected by it and i will update it.

ahmedeheid81 - August 16, 2011, 7:47 pm

WOW first reply

TY very much, waiting for you crypters along time ago ??

davae93 - August 17, 2011, 12:18 am

good free stuff thanks for the share lol fight the antivirus with karate !!!

KAVLOSAVROS95 - August 17, 2011, 1:04 am

thanx a lot!very nice job!!! keep walking!! :D ... Make a crypter which no keylogger detect.:)

rollercake - August 17, 2011, 1:04 am

Thanks for this!

Great work on the crypter, it works perfectly.

V3xD - August 17, 2011, 5:32 pm

Bump!

Can anyone else think of any other worthy Anti-Viruses to add to my collection for FUDing?

timsan11 - August 17, 2011, 5:58 pm

i dunno whats wrong but its not working for me :/

TRALALALALALALALALALALALLALALALA

Maybe if you explained more about why its not working i could help you? It works fine on my Win7 x64 and my XP x32.

rb` - August 18, 2011, 1:02 am

Thanks bro, I can't wait to use this on my new rat :) Anyone vouch that it works and its clean? lol Also, what does the registrator.bat do? because you say its needed to make it smoothe or something, with functioning

The crypters requires some .ocx dependencies. Running the registrator simply runs regsvr32 on the .ocx's. None of my uploads are infected you can ask anyone here pretty much, I've been posting my crypter mods for a long time. Infact, i just finished another.

J0eBlack - August 18, 2011, 6:58 am

Too bad this one doesn't work with dark comet ...

V3xD - August 18, 2011, 7:42 am

(Aug 18, 2011 06:58 AM)J0eBlack Wrote: [\[CITE\]](#) Too bad this one doesn't work with dark comet ... Just did some testing and im afraid you right.

Users, this will not work with DarkComet.. DarkComet is ridiculously unstable and buggy anyways

imo..

SaggyBewbs - August 18, 2011, 7:54 am

Thanks for the crypter but some of it is in spanish and i couldnt understand it lol

bernardbear - August 18, 2011, 6:50 pm

hahahaha hey brother . . . you are bac now . . work hard dude

rb` - August 18, 2011, 8:27 pm

Error when trying to run - The Specific Module Can Not Be found. THIS IS INFECTED- NO ONE DOWNLOAD!

IT HAS A TROJAN WORM IN IT!

Corney - August 19, 2011, 4:08 am

Thanks! I'm gonna try it. Is a problem to decrypt with your program a bad crypted keylogger?

V3xD - August 19, 2011, 4:12 am

(Aug 19, 2011 04:08 AM)Corney Wrote: [\[CITE\]](#) Thanks! I'm gonna try it. Is a problem to decrypt with your program a bad crypted keylogger?

Yeah, if you have a crypted.exe.. do not put another encryption over it. If it still works then all it would be doing is making it scantime undetected, not runtime. Re-crypt your original unencrypted server.exe.

dead2591 - August 19, 2011, 4:17 am

this is a good crypter and do not scan it online to keep this UD long time.

f0rest - August 19, 2011, 4:37 am

thanx a lot!very nice job!!! keep walking!! :D ... Make a crypter which no keylogger detect.:)

PhoenixDub - August 19, 2011, 8:14 am

ah another great crypter by V3xD thank you man.

Wonderful work, Clean, especially free with no sharecash and working..

One of a kind.

(:

dettoh - August 19, 2011, 8:29 am

thanks man it works yea i suggest getting it
