Thread: [Decrypting And Encrypting Passwords For Free](#)

medo5120 - August 17, 2011, 7:31 am

1-What Service Do I Give?

-Decrypting And Encrypting Passwords

2-Who Can Apply?

-Everyone?

3-How Much DOES IT COST?

-NOthing it's 1000% Free ?

4-How Can i Use it ?

-Decrypting:Post the password you want to decrypt here and The Way u Want to decrypt it
ex:(Gila7-->Tripo5 etc..)

-Encrypting:Post here And Pm me With The Password U Want to Decrypt

5-What Is the Service Statues?

-Active

Hope I Help Some People? ?

eroom - August 17, 2011, 7:56 am

3a3947b405b64f5dd9a91f3d5fd52acc:dNLa5ltEcILbROAOiAAJVMFWNvzU7NRK

^That's a salted MD5 from joomla 1.7

medo5120 - August 17, 2011, 8:24 am

well couldn't but still trying and in my topic i just said passwords no md5 and i created this for noobs who can't decrypt but i will still try

Mewtw? - August 17, 2011, 8:26 am

Your service is useless.

<http://crypo.com>

This is very easy, they just need to know the site.

medo5120 - August 17, 2011, 8:39 am

well i am still a god damn noob and i liked to try it and in my topic name i wrote passwords not md5 hashes and yeah if u found my service is useless keep it for ur self and get the hell out of here
(Aug 17, 2011 08:26 AM)xCerberus. Wrote: [\[CITE\]](#) Your service is useless.

<http://crypo.com>

This is very easy, they just need to know the site.

and if it is so easy go to cybershark topic and see how many noobs can't decrypt the password

eroom - August 17, 2011, 9:02 am

Oh I'm sorry, I didn't know that hashes and passwords were different things. Thanks for trying

anyways!

medo5120 - August 17, 2011, 9:22 am

(Aug 17, 2011 09:02 AM)eroom Wrote: [\[CITE\]](#) Oh I'm sorry, I didn't know that hashes and passwords were different things. Thanks for trying anyways!
it is ok buddy and i am sorry that i can't decrypt it ?

joelhil1 - August 17, 2011, 12:08 pm

i need a crpter somebody help pay anything soooo if you have one reply cool later \$\$

gkrmelj - August 17, 2011, 1:04 pm

hope u reply soon ;) and i hope you will read this in time :D

medo5120 - August 17, 2011, 1:17 pm

Replied but tell this pass is for what post her dude !!

Floziko - August 17, 2011, 1:37 pm

I will pm you.

shortshortshortshortshortshortshort

GBMaster - August 17, 2011, 1:44 pm

\$H\$9iTCW3PUo8hJmpUMj8nwB/E4aF9uAJ1

From phpbb2, I don't know the salt or anything

medo5120 - August 17, 2011, 1:56 pm

no md5 hash cracking sorry i don't know how to crack them
(Aug 17, 2011 01:37 PM)Floziko Wrote: [\[CITE\]](#) I will pm you.

shortshortshortshortshortshortshort

sorry can't decrypt it it is hard and the author said if u can't decrypt download from sharecash sry buddy

BrothaMike - August 17, 2011, 2:49 pm

hop u will decrypt i'm also use this service but on this hash i'm totally lose if u can decrypt then u are the best else u r llosserr

??????????

~tentical

Those are unix md5 hashes. I'll give them a shot, and pm you if I can crack any of them.

The Service Is Down For 1 Month From now BB All

I need link pleasee?? Can you do that for me?

lol english is not my country language so i'm weak..sorry :D

thanks for trying. I didn't know what they were.

Note: Ignore the "error in decrypting" and continue the decrypting.

Thanks a lot man.. :)

decryption md5+salt from vbulletin thanks for doing this

medo5120 - September 11, 2011, 5:49 pm

Well the md5 is the hard part but i will give u a hand but just be patient

Sry every one who asked for a hash , i couldn't decrypt them please use another service because this service is stopped i can't edit the thread because i'm not l33t so sry guys hope u good luck <3

Error - January 3, 2012, 4:33 am

How to decrypt this

Archivo RAR: TEA "Sin Pass"

Descomprimir RAR: O^MKbLN\J[<<
ROT9

Lycus - January 3, 2012, 6:37 am

Sorry for ing an old thread, but I figured this would be a good place to post.

What program/script/website do you use for decryption?

Crypto.com lack support for several methods, such as Triple XOR and Triple DES and I just can't seem to find a tutorial for decrypting those.

If you could help me I would be very glad.

piwikiller - January 3, 2012, 1:42 pm

Triple des http://www.tools4noobs.com/online_tools/decrypt/

Triple xor is if i understand it correct 3 times encrypted in xor

So if you decrypt it in xor you need to redencrypting if for another 2 time(im not sure on this maybe someone can verify it)

<http://www.abcel-online.com/tools.php?id=decrypt>.

Sports. - January 3, 2012, 4:11 pm

eeab26ffcdf544ef37f81f6cb8710513

its some kind of md5 hash and would really appreciate if you'd crack it

KarSticx - January 5, 2012, 10:40 am

Anyone Decrypt this code?

http://www.tools4noobs.com/online_tools/decrypt/

Triple xor is if i understand it correct 3 times encrypted in xor

So if you decrypt it in xor you need to redencrypting if for another 2 time(im not sure on this maybe someone can verify it)

<http://www.abcel-online.com/tools.php?id=decrypt>.

Thanks, those worked like a charm. :)
