Thread: [Infolinks Blackhat Method..For Newbies- Mediafire Download](#)

ahmadlucky - August 17, 2011, 11:01 am

hello friendz

i am sharing my own infolinks Blackhat method. I was using this method last year and it always worked perfectly for me. I just stopped using this method because i found something paying more.

So, i am sharing with you guyz. I have also attached some payment proofs which i found on my photobucket (My Old paypal is limited thats why, i could not attach all proofs of payments.).

I am 100% sure that this method would be working for now too.
