Thread: [Hack Facebook Account : Hack Facebook Accounts Free \(2011 AUGUST\)](#)

rachelrawr - August 18, 2011, 6:57 am

"Hack Facebook Account" is most popular term is the in Web, Previously I posted many articles on "Hack Facebook Accounts" with keyloggers, phishing, etc but that Hacking Of Facebook Account methods are not working fine now a days. So Hackers have to go smarter and we have found a new security hole (its just a trick) in the FB. So we can Hack Facebook easily. Now we can hack facebook online with the help of new password recovery feature of FB. So keep on reading about this new way for Hacking Of Facebook Account.

[img]http://4.bp.blogspot.com/-2HY6XVAF3k/Tgcvt3I5uyCI/AAvE/12QRaT6Y2Lk/s1600/hack+facebook+accounts.jpg[/img]

HACK FACEBOOK ACCOUNTS-OVERVIEW HACK FACEBOOK ACCOUNTS

FB recently released new way to Recover Account Password using "Three Trusted Friends" . If we forgot the Facebook account password then FB will send unique security code to three friends. Then we have to ask that security code to each three friend. And after giving that codes to FB we can recover the Facebook password. We can use this feature to Hack Facebook Account Free

So here we are going to misuse this new feature of FB to Hack Facebook Account. We have to just create 3 fake Fb accounts and then have to send the friend request from those 3 fake accounts to the victim. Victim must accept those friend request. Now we can use this above "Three Trusted Friend" feature to reset the victims' Facebook account password. I have given a full guide with screenshots on How To Hack Facebook Accounts.

Note : The 3 fake account must be 7 day older, otherwise this Facebook Hack will not work
Hacking Facebook Account : Hack Facebook Accounts For Free
So lets start on our tutorial on Hack Facebook Account For Free :

1. Go to [FACEBOOK.COM](#) and click on Forgot Password, so that you will see like this

[img]http://2.bp.blogspot.com/-DgT37yYqVfI/Tgcpk0klKHI/AAuw/2PX3OXg-gSo/s1600/hack+facebook+accounts+1.jpg[/img]

2. Now give the victim's Facebook account email or if give the FB username or Profile name and click on search. And then you will get the victims profile account. Just click on "This is my Account" as shown below :

[img]http://3.bp.blogspot.com/-lbInkOausUU/TgcpooW4ZvI/AAu4/SeC2ZAx2xh4/s1600/hack+facebook+accounts+2.jpg[/img]

3. Then click on "No longer have access to this" as shown below :

[img]http://2.bp.blogspot.com/-VA9qVEKTqK4/TgcpnBMI0II/AAu0/xhtuV3oV2iQ/s1600/hack+facebook+account+3.jpg[/img]

4. Now you will be asked to enter new email address, just enter your own new email address

[img]http://2.bp.blogspot.com/-YszKpPyhvq8/TgcpqDPnclI/AAu8/DmKj5RnvkbM/s1600/Hacking-Facebook-password.jpg[/img]

5. Now Facebook will ask you to give security question's answer. Not to worry, just enter wrong

answer thrice and you will be taken to this new page as below :

[img]http://3.bp.blogspot.com/-h6KtI7DrQw0/TgcpsZPiGZI/AAvA/ncnEMIJnb44/s1600/Hacking-Facebook-account-final.jpg[/img]

6. Here is the main part of Hacking Of Facebook Account. Click on Continue and FB will ask you to select 3 Trusted Friends. Their will be a full friend's list of the victim which also includes your previously created "Three Fake Facebook Account" . Just select that three accounts and then Facebook will send security codes to our fake accounts. Now collect those security codes and enter it. Then Facebook will send "Password Recovery Email" at the email address we entered in 4th step. Thus you can easily reset the password of victim's account. No we have successfully done with Hack Facebook Accounts

Note : We have received the problems like they don't get the new page in step 5. So this depends on the victim's activity on Facebook account.

I will use it straight away :)

blackhawk48 - August 24, 2011, 12:36 pm

OK so,first i am not a pro, i tried this and i was happy to get success for the first time. But when i did this with other ID, after clicking the "no longer have.." it took me to the "Try to get access to your email" page instead of asking me for a new id. But still, for some IDs it ask for the email and for some it doesn't.. Can anyone help me with this plz

?K47 - September 9, 2011, 5:34 pm

Went to test this method and yeah looks like in order for a friend to be eligible to receive the code they have to either be friends with you for a certain long period of time (could be days, weeks, or even months not sure yet but will be counting the days) or it could be that you must of had a specific amount of interaction with the friend (a certain number of comments/likes to their facebook page) also testing for this to try and perfect the method, will post up results when I confirm more

awsumkiller - October 17, 2011, 5:48 am

Fantastic tut man, thanks for help :)

lp3x - October 17, 2011, 10:27 am

After I give wrong answer this give me the facebook home page..

Minority37 - October 17, 2011, 11:39 am

Nice tutorial :) I hate one spammer so this can be good way for revenge :D But we are still friends :D

Sembrik - October 18, 2011, 3:39 pm

THANK YOU VERY MUCH!:DD I FREAKING HACKED A FACEBOOK ACCOUNT WTF! :D

gumbawler - October 18, 2011, 8:51 pm

can you PM me how to get the option to send the code to three people, i did not get that, thanks will rep + :)

Sanel Beslic - October 18, 2011, 9:07 pm

This only works to a certain extent of anonymity, one wrong move and it's blip, oh **

telepotera - October 19, 2011, 9:31 am

its not working here in sweden, this update with 3 friends?:O someone*?

Coonlagoon - October 23, 2011, 9:59 pm

doesn't work:(... doesn't go to 3 friend pages, goes to "Please fill out this form if you were unable to answer your security question. Note that we don't provide personalized support for this issue right now, but we'll use this information to identify any bugs in our system"

squirrel - October 23, 2011, 11:01 pm

yea i cant get the 3 freinds thing ither ther has to be a nother way ? maby some sort of formula to guess there password ?

m_stylish_m - October 24, 2011, 3:32 am

yeah really it works but its posted befor but it doesnt work for every ids ids only for thos people who havnt linked there fb ids with yahoo and other bad thing is this that it lock 24 hour after 24 hour u r able to get acess so if u wait tell that time victims get back his account trough email

cribel - October 24, 2011, 4:38 am

really nice tut :) try this soon :)

jbidevice101 - October 24, 2011, 7:19 am

doesnt work anymore? i tried it i didnt get through to ask me of a friend

princeofindia - October 24, 2011, 11:22 am

This was posted before.. I recommend searching before making new threads!!

Who need facebook/mail hacking pm me!

I doing it cheap and giving proof when i get password!

Prince™ - October 24, 2011, 9:25 pm

Something like social engineering huh? Nice but the fact is it's not applicable to accounts which is highly active.

UnknownDude - October 26, 2011, 2:02 am

Thanks for the Tutorial, but it is recommended you do this when your victim is not on for a period of time.

Overdose - October 26, 2011, 5:00 am

I already knew of this but great tutorial.

Anubis - October 26, 2011, 8:15 am

Doesnt work anymore :/ We recommend that you contact your email address provider directly to regain access to the email address associated with your Facebook account.

Accounts.

But is there any way to hack someone's fb account without them having to add anyone? The target I am trying to hack is a very suspicious person, and will not just add fake randoms that they don't actually know irl as fb friends. ? So then, what can I do?

A few years ago a mother and a father decided they needed a break, so they wanted to head out for a night on the town. So they called their most trusted babysitter. When the babysitter arrived the two children were already fast asleep in bed. So the babysitter just got to sit around and make sure everything was okay with the children. Later in the night, the babysitter got bored and so she wanted ..to watch tv but she couldnt watch it downstairs because they didnt have cable downstairs (the parents didnt want their children watching too much garbage) so she called them and asked them if she could watch cable tv in the parents room. Of course the parents said it was ok, but the babysitter had one final request. She asked if she could cover up the large clown statue in their bedroom with a blanket or cloth, because it made her nervous. The phone line was silent for a moment, and the father(who was talking to the babysitter at the time) said..take the children and get out of the house..we'll call the police...we dont have a clown statue.. the children and the babysitter got murdered by the clown. it turned out 2 be that the clown was a killer that escaped from jail. if you dont repost this within 5 minutes the clown will be standing next 2 your bed at 3:00am with a knife in his hand

clowns are gross... now i wont die!:

Any Facebook account I would be interested in hacking would be someone who is not my friend, such as an enemy for example. I believe the most challenging part of this idea is getting the victim to accept the friend requests. A lot of people only accept people they know. In that case, this plan would not work.

try hacking her email first... then you can reset her password... also u must not know much about her if you cant answer the stupid security questions... just figure out which one she has and try to bring it up in conversation...

also keep in mind that once she realizes the password is changed she will change it to something different and you are locked out again... might want to try a keylogger instead so you can get her actual pass then have access whenever you want.

zimo123 - January 25, 2012, 4:33 pm

Hi everyone,

I have a quick question about this method. I've read a lot of you saying that it doesn't work anymore, but when I try to hack into my victim's FB, the 3 trusted friends option is there.

So instead of sending requests of newly created profiles, I managed to hack 3 people in my victim's friendlist. However, before actually doing the 3 trusted friends trick, I want to have a pretty good idea of how this is going to work. So I have a few questions if some of you can help me:

1. Is it going to work? Because I noticed something unusual: when I select the first trusted friend, facebook tells me that I have a limit of only choosing one friend, so I have to click "next". So what will happen next? Are they going to let me choose the two other friends myself or is facebook going to suggest them?

2. I read that the codes are sent to the 3 people, but how exactly are they sent? By email or by facebook? Because I only hacked their facebook account (and their password isn't the same for

their email, except for one).

3. I also read that there is a 24-hours wait before I can login into the account. So if the victim tries to log-in, she'll know that she's been hacked... but is there anything she can do about it or not ? I mean can she cancel the 24-hours wait?

Thanks a lot!

PS. I wanted to create fake accounts and try the 3 trusted friends trick but facebook doesn't allow new accounts without providing them with a valid phone number where they'll send you a code to active your account :O

So Hackers have to go smarter and we have found a new security hole (its just a trick) in the FB. So we can Hack Facebook easily. Now we can hack facebook online with the help of new password recovery feature of FB. So keep on reading about this new way for Hacking Of Facebook Account.

HACK FACEBOOK ACCOUNTS-OVERVIEW HACK FACEBOOK ACCOUNTS

FB recently released new way to Recover Account Password using "Three Trusted Friends" . If we forgot the Facebook account password then FB will send unique security code to three friends. Then we have to ask that security code to each three friend. And after giving that codes to FB we can recover the Facebook password. We can use this feature to Hack Facebook Account Free

So here we are going to misuse this new feature of FB to Hack Facebook Account. We have to just create 3 fake Fb accounts and then have to send the friend request from those 3 fake accounts to the slave. slave must accept those friend request. Now we can use this above "Three Trusted Friend" feature to reset the victims' Facebook account password. I have given a full guide with screenshots on How To Hack Facebook Accounts.

Note : The 3 fake account must be 7 day older, otherwise this Facebook Hack will not work

Hacking Facebook Account : Hack Facebook Accounts For Free

So lets start on our tutorial on Hack Facebook Account For Free :

1. Go to [FACEBOOK.COM](https://www.facebook.com) and click on Forgot Password, so that you will see like this

[img]http://2.bp.blogspot.com/-DgT37yYqVfI/Tgcpc0klKHI/AAuw/2PX3OXg-gSo/s1600/hack+facebook+accounts+1.jpg[/img]

2. Now give the slave's Facebook account email or if give the FB username or Profile name and click on search. And then you will get the victims profile account. Just click on "This is my Account" as shown below :

[img]http://3.bp.blogspot.com/-lbInkOausUU/Tgcpc0W4ZvI/AAu4/SeC2ZAx2xh4/s1600/hack+facebook+accounts+2.jpg[/img]

3. Then click on "No longer have access to this" as shown below :

[img]http://2.bp.blogspot.com/-VA9qVEKTqK4/TgcpcnBMI0II/AAu0/xhtuV3oV2iQ/s1600/hack+facebook+account+3.jpg[/img]

4. Now you will be asked to enter new email address, just enter your own new email address

[img]http://2.bp.blogspot.com/-YszKpPyhvq8/TgcpcqDPncII/AAu8/DmKj5RnvkbM/s1600/Hacking-Facebook-password.jpg[/img]

5. Now Facebook will ask you to give security question's answer. Not to worry, just enter wrong answer thrice and you will be taken to this new page as below :

[img]http://3.bp.blogspot.com/-h6KtI7DrQw0/TgcpsZPiGZI/AAvA/ncnEMIJnb44/s1600/Hacking-Facebook-account-final.jpg[/img]

6. Here is the main part of Hacking Of Facebook Account. Click on Continue and FB will ask you to select 3 Trusted Friends. Their will be a full friend's list of the slave which also includes your previously created "Three Fake Facebook Account" . Just select that three accounts and then Facebook will send security codes to our fake accounts. Now collect those security codes and enter it. Then Facebook will send "Password Recovery Email" at the email address we entered in 4th step. Thus you can easily reset the password of slave's account. No we have successfully done with Hack Facebook Accounts

Note : We have received the problems like they don't get the new page in step 5. So this depends on the slave's activity on Facebook account.

PLEASE DON'T FORGOT TO RATE AND COMMENT

For me not work..Just select that three accounts and then Facebook will send security codes to our fake accounts.?

Rotom - February 9, 2012, 2:27 pm

cool tutorial, thanks for this . ^^

Very nice tutorial. Thanks for posting!

TheHack3rsL0rd - February 13, 2012, 3:30 am

Thanks For Tutorial :D Its Not Working Anymore

DiscoRabbit - February 13, 2012, 4:24 am

i guess i never thought of this, nice

FullmetalTimo - February 13, 2012, 5:39 am

didnt think this would work because it looked very easy

dlee38 - February 13, 2012, 8:48 am

nice on, looks really pro, will have to try it

Xzebx - February 14, 2012, 1:33 pm

Very Nice Tutorial Keep the Good work bro :)

yuchat - February 14, 2012, 4:28 pm

hello and thx you 4 this
this works our not?

doriqko - February 15, 2012, 12:14 am

no running program and not a virus...this is for paypal

The Virgo - February 15, 2012, 1:12 pm

Does this actually work? The website brought me to a welcome ad.

jayfiraweaver - February 15, 2012, 3:08 pm

epic i am so stealing some peoples accounts :D

jessyray - February 16, 2012, 8:32 pm

nice tutorial! i will try this out :)

JaCkT794 - February 17, 2012, 7:17 pm

pretty simple but easy, nice :) subbing...

digitalbayer - February 18, 2012, 8:54 am

Does it still work? or there is new method?

Chocobar - February 18, 2012, 3:22 pm

Nice one, thank for that.

And i dont know why but i must write more than 35 characters to say something, but okay.

GD88 - February 18, 2012, 11:50 pm

Is this still working people...

anyone created fake accounts we can have access to?

JaCkT794 - February 19, 2012, 12:17 pm

ATTENTION

yes it still works but only on some people.

a lot of people you need to fail the security question first in order to get to this point. However bare in mind they may have the security question enabled but the friends thing NOT.

By the way can some beautiful person out there help me in return: I tried hacking a girl through the security question. I got it right and changed her email/ password but it came up with having to wait 24 hours to access the account. It seems to do this every time the security question is answered correctly even if FB think it is legit.

So she got back in during this period. Profile pic changed and comments/ wall posts made within

this time. It won't let me access her security question again though. Do I have to wait or what? I doubt she has disabled it, I doubt she has even realised someone tried to "hack her" but is there a time limit until I can answer the security question again?

GD88 - February 20, 2012, 8:24 am

anyone want to share details of your fake profiles....its not like its your own...
we can build up friends too with our victims...will look more legit :)

herpyderp - February 21, 2012, 12:28 pm

this method is not working any more..

It just takes you to step 3 and that's but the thing is i know the email address but i can't access the slave's inbox

making this rather impossible. inorder to reset the password it doesn't let you to change the email address registered to the slave.

so any work-around in this case.

Hit me up just in case

,

clawskidna - February 21, 2012, 12:51 pm

er this doesnt really work anymore..

z1ad1996 - February 21, 2012, 1:19 pm

good stuff , this is really easy i will test it later <3

Not Working i Suppose nowadays ?i did try out

JaCkT794 - February 22, 2012, 10:12 am

really? -_- i tried it literally 3 days ago and it worked....

preetam - February 22, 2012, 10:13 am

Thanks for the trick, will try afterwards, but after looking at the others comment it seems to be not working, any ways. thanks again.

stylez233 - February 22, 2012, 4:52 pm

theees a flaw tho the person would need to add the fake facebook -.-

Incendiary - February 22, 2012, 5:00 pm

this tutorial is old and outdated... ?

Kosimo - February 23, 2012, 12:16 am

didnt know this might have to try ;3

Addictionz - February 23, 2012, 12:52 am

It doesn't work anymore. Facebook has a new system, if they report there account is stolen they ask for you to try sign back in with there IP created on the account.

Sutibun - February 23, 2012, 4:05 pm

it dosent working..if you click that you dont have access to you emails fb pops up a box that it says they are sorry blah blah blah we cant help you..it was cool when it was possible but now its change..

Levitation - February 24, 2012, 7:13 am

this hack still works?

someone PM me.

showty - February 26, 2012, 9:45 am

Does it still work? some are saying it dosen't, some are saying it does lol.
I guess i'll have to try myself o.o

argan - February 26, 2012, 10:43 am

No It don't work now

I try it, I succeed to have the 3 pass-code, after waiting the 24h of delay FB ask me to log with the computer of the real owner (concerning the IP)

vcinzz - February 26, 2012, 10:51 am

Nice tut but, is something you already knew :)

scrappy_coco - February 27, 2012, 1:03 pm

looks pretty good i'm gonna try it thanx

gergg1192 - February 27, 2012, 11:32 pm

Nice! Looks Very Nice! great work. keep it up

Benjamin. - March 4, 2012, 6:52 am

Just to let you know, facebook have changed the way they do it - they email codes to friends and you have to get the codes.. try if you dont understand

hellonyou - March 4, 2012, 7:51 am

amazing job haha it actually works hacke into the ex facebook ;D

Sprites - March 4, 2012, 2:42 pm

nice tutorial! Honestly a terrible move on their part adding this in.

Shaco Bot - March 4, 2012, 3:50 pm

Any able to hack this account:

<http://www.facebook.com/profile.php?id=589750799&sk=info>

I will pay perhaps \$2 for this to be done tonight (UK TIME).

Pm me if you can do this over skype.. username: i_am_5trk035 add me!

egberti - March 5, 2012, 1:39 pm

Good stuff dude. Trying to understand some of this stuff lol.

JakeWarrington - March 5, 2012, 2:17 pm

If someone does this for me (pretty quick) i will pay them \$5 i have all details etc, just not have time or effort! and want to help a fellow HF with some money ;)

vcsack - March 5, 2012, 7:34 pm

Anyone been successful in getting this to work still?

whysearcher - March 6, 2012, 6:01 am

Does this actually work? I want to try on it.

Donau135 - March 7, 2012, 12:14 pm

can someone help me to hack a facebook account ? i have the full name, FB-Name and the login e-mail adress...plz send me a PN, thnx

CannabisForever - March 8, 2012, 11:47 am

This still works correct? Let me know as I really need to get into this scammers facebook account. It is our only option now since he lives in Australia and internet fraud isn't really doing anything right now.

Alright, it seems that it works for some while it's ineffective for others. I will give it a go and post my results later.

Ok so when I make the three facebook accounts, it wants to send a verification code to the phone to activate it? Any possible way to override this?

vcinzz - March 8, 2012, 11:55 am

facebook has put the protection of the phone ... just change the password comes a sms message to the owner.

thedingalingz - March 8, 2012, 3:46 pm

Good question I'd like to know this too. Do all three friends have to be close friends? I don't want to have to waste my time getting someone to accept 3 random friends if its not going to work.

zodiac009 - March 9, 2012, 7:52 am

First: Thanks for the TuT! But I tried and it doesn't work yet. :(

Southy - March 17, 2012, 6:22 am

nice man ! i am so trying this :D , hope it works

Benno4678 - March 17, 2012, 6:41 am

Does'nt often work as when you pick one friend it will only leave with a few random friends to choose from. You'd have to be extremely lucky to get all 3 of your accounts...

Tags - March 18, 2012, 10:33 am

Nice Going to try this out now
i hope it works :D :D :D

coolguy4 - March 18, 2012, 7:11 pm

3 friends doesnt work anymore ./ i think, atleast when i try it i can only choose one out of 10 people or so and then 1 out of other 10 people and again 1 out of 10 people. :(

CoraByte - April 6, 2012, 5:00 pm

This isn't working anymore. Mostly facebook will say:

"We're sorry you're having trouble recovering your email address. Unfortunately, this means we can't verify who you are or give you access to the Facebook account you're trying to log into. We may hide the information on your Facebook account if we detect that you cannot regain access to it.

To learn more about how to access your Facebook account, please see our Login Problems Help Page"

On some people it will may proceed to the next steps. But facebook don't sent recovery password to chosen email.

Beyond Zero - April 6, 2012, 5:15 pm

not working anymore. for those who want to request a facebook hack just PM me.

Outdated, does not work anymore unfortunately.

josegarcia5843 - April 12, 2012, 1:39 pm

Great work. But it only work on those who add friends without thinking

illusionniste - April 14, 2012, 6:47 am

No working anymore. After sending requests to the 3 supposed Friends and receiving the codes and filling them in the fields, they say you have to wait 24 hours for security purpose. After all waiting one day, you wanna connect with the new password they say: "The email you entered is in use, try a different one and start the process again"

sultansaga1 - April 14, 2012, 2:02 pm

hey bro i gonna try this method i hope work

moe100 - April 15, 2012, 6:47 am

i tried it, it didn't work, because every time they change the list where i can't find my three accounts, some times i pass step 2 but when i reach step 3 i can't find my account, i made 5 fake accounts and still it doesn't work, any help ? or any other way of hacking facebook ?

idknow2 - April 17, 2012, 8:33 am

If i change the slave's FB password, it will give an e-mail about a new password or just message about the password is changed?

moe100 - April 17, 2012, 10:03 am

great job!!

i tried it and it worked, but you might face some problems due to the change of the list at each step thank you anyways :)

IV-MP - April 19, 2012, 4:23 pm

I confirm, tried too, Facebook didn't ask me for three trusted friends.

k4rnqI - April 19, 2012, 10:15 pm

This works, but the 3 account must not be friend.

When you pick your first friends, all common friend with the slave are deleted from the list.

Does this still work, I will try for myself and let you guys know

Meadling - July 27, 2012, 2:49 am

I have tried this but it no longer works. :(

weedman99 - July 27, 2012, 6:59 am

They change automaticly the friends for me.. but it have work for 3-4 times for me, but now they just change friends, i cant pick who i want :/

Rulerzz - July 27, 2012, 10:17 am

I Know This Before

But Thanks for Sharing

greedy21 - July 27, 2012, 11:33 am

this still work ?

cause 2011

but thanks

Unicron - July 29, 2012, 6:41 pm

Not only do they randomize the friends, but the last time I did this they gave the original l/p 24hrs to void it. So even if you can still do it, you need your target to stay offline for a day. Which I suppose you could manage if you timed it to coincide with their going on a vacation. Good chance of that being the summer. But yeah it's tough going now.

(

okeslim - September 15, 2012, 2:36 am

will give a try and see how it works...

moe100 - September 15, 2012, 3:19 am

i tried it but once the slave signed in with his account i think he canceled it or something because there was like 12 hours remaining to send me the reset password link, until everything disappeared and i couldn't see the countdown anymore, any help ? or any other way to hack facebook ?

RED HAT - September 15, 2012, 4:34 am

I know that way from date when facebook added that reactivation method. It's not something special , account owner can back account very fast by mail or any other way

kasey666 - September 16, 2012, 8:23 am

how can u create 3 fake accounts and be accepted as a friend into the slave facebook account

trigun61nyc - September 16, 2012, 8:41 pm

I'll have to give this a try, though only seems useful now if you're targeting someone you really know well.

(Aug 18, 2011 06:57 AM)rachelrawr Wrote: [\[CITE\]](#) "Hack Facebook Account" is most popular term is the in Web, Previously I posted many articles on "Hack Facebook Accounts" with keyloggers, phishing, etc but that Hacking Of Facebook Account methods are not working fine now a days. So Hackers have to go smarter and we have found a new security hole (its just a trick) in the FB. So we

can Hack Facebook easily. Now we can hack facebook online with the help of new password recovery feature of FB. So keep on reading about this new way for Hacking Of Facebook Account.

[img]http://4.bp.blogspot.com/-2HY6XVAF3k/Tgcv3I5uyCI/AAvE/12QRaT6Y2Lk/s1600/hack+facebook+accounts.jpg[/img]

HACK FACEBOOK ACCOUNTS-OVERVIEW HACK FACEBOOK ACCOUNTS

FB recently released new way to Recover Account Password using "Three Trusted Friends" . If we forgot the Facebook account password then FB will send unique security code to three friends. Then we have to ask that security code to each three friend. And after giving that codes to FB we can recover the Facebook password. We can use this feature to Hack Facebook Account Free

So here we are going to misuse this new feature of FB to Hack Facebook Account. We have to just create 3 fake Fb accounts and then have to send the friend request from those 3 fake accounts to the slave. slave must accept those friend request. Now we can use this above "Three Trusted Friend" feature to reset the victims' Facebook account password. I have given a full guide with screenshots on How To Hack Facebook Accounts.

Note : The 3 fake account must be 7 day older, otherwise this Facebook Hack will not work

Hacking Facebook Account : Hack Facebook Accounts For Free

So lets start on our tutorial on Hack Facebook Account For Free :

1. Go to [FACEBOOK.COM](https://www.facebook.com) and click on Forgot Password, so that you will see like this

[img]http://2.bp.blogspot.com/-DgT37yYqVfI/Tgcpc0kIKHI/AAuw/2PX3OXg-gSo/s1600/hack+facebook+accounts+1.jpg[/img]

2. Now give the slave's Facebook account email or if give the FB username or Profile name and click on search. And then you will get the victims profile account. Just click on "This is my Account" as shown below :

[img]http://3.bp.blogspot.com/-lbInkOausUU/TgcpooW4ZvI/AAu4/SeC2ZAx2xh4/s1600/hack+facebook+accounts+2.jpg[/img]

3. Then click on "No longer have access to this" as shown below :

[img]http://2.bp.blogspot.com/-VA9qVEKTqK4/TgcpnBMI0II/AAu0/xhtuV3oV2iQ/s1600/hack+facebook+account+3.jpg[/img]

4. Now you will be asked to enter new email address, just enter your own new email address

[img]http://2.bp.blogspot.com/-YszKpPyhVq8/TgcpqDPncII/AAu8/DmKj5RnvkbM/s1600/Hacking-Facebook-password.jpg[/img]

5. Now Facebook will ask you to give security question's answer. Not to worry, just enter wrong answer thrice and you will be taken to this new page as below :

[img]http://3.bp.blogspot.com/-h6Ktl7DrQw0/TgcpsZPiGZI/AAvA/ncnEMIJnb44/s1600/Hacking-Facebook-account-final.jpg[/img]

6. Here is the main part of Hacking Of Facebook Account. Click on Continue and FB will ask you to select 3 Trusted Friends. Their will be a full friend's list of the slave which also includes your previously created "Three Fake Facebook Account" . Just select that three accounts and then Facebook will send security codes to our fake accounts. Now collect those security codes and enter it. Then Facebook will send "Password Recovery Email" at the email address we entered in 4th step. Thus you can easily reset the password of slave's account. Now we have successfully done with Hack Facebook Accounts

Note : We have received the problems like they don't get the new page in step 5. So this depends on the slave's activity on Facebook account.

PLEASE DON'T FORGOT TO RATE AND COMMENT

lol it just that easy right but hacking facebook is dum because its facebook lol sorry what else can u doo lolol

Can someone please hack into a facebook account?

please... It's my girlfriends and I almost positive shes cheating.. I wish i could explain more but to sum it up. Please we've been together for almost two years. and I've started noticing changes , but I just want to make sure.

Please email me if something can be done. I would greatly appreciate it. If i could do it and someone else had this problem id help them personally , but i have no set of skills on hacking or know anybody with those special skills. Im not asking for much i just want to be able to make sure these feelings of her cheating are true..

Im sorry if im asking to much.. but if possible please notify me ASAP ..

So if you are going to try ill doubt it will work :/

xXxKingOfChaosxXx - April 9, 2013, 6:51 am

I'm just saying, this isn't really hacking. It's more like a "Glitch". It's still pretty easy though.

Lunox - April 9, 2013, 6:55 am

Thanks.

Cordially. Lunox Official.

zBioxyde - April 9, 2013, 4:35 pm

Thank you so much bro, even if i already know this glitch (;

sapnamulani - April 12, 2013, 12:10 am

this does not retrieve password. it resets the password.. any technique to retrieve the password
????

aman211011 - April 14, 2013, 2:43 am

dude it doesn't work :(.. can i hack ,,tell me ? :(

SionX - April 14, 2013, 6:20 pm

yea i can get this to work either ? shame though.

Lopin - April 15, 2013, 5:40 am

Great tutorial, but if i use it, i would probably get caught hehe

1337God - April 15, 2013, 11:58 am

Nice gravedig, of course it won't work, you guys should check the post date before trying something. This thread was made on 08-18-2011 so obviously won't work.

omgfunnypost - April 15, 2013, 5:53 pm

Nice hack . I hope it works! Here we goo :)

SionX - April 15, 2013, 6:04 pm

cooldude232388 - May 7, 2013, 8:42 pm

I going to see if this still works! Hopefully it does.

Zazaza69 - May 11, 2013, 9:05 am

this has been posted before and it has only work a few times, Cause each time you pick a friend they change the friends so you can't always pick the friends you want.

Pond - May 12, 2013, 10:40 am

yea this is old, and no longer working anymore,

Illuminati???????????? - May 15, 2013, 6:00 pm

omarvilla4290 - June 21, 2013, 11:53 pm

this just works if have the hotmail password and the hacked user loos his password, i need to know

the password so hi can still use his original pass i have to be invisible is that possible?

complexX_value - July 5, 2013, 8:30 am

does this still works?

i was try to reset the password of my victim but i need to know so much information like birthday email secret word and stuff

shark1312 - July 12, 2013, 5:28 pm

That is imposible to do , since facebook have a recovry for everything.

Judecca - July 12, 2013, 7:16 pm

This seems practical enough, but does this still work?

Also, would you mind fixing those images as they only appear as "?"

iParHF - July 13, 2013, 10:18 pm

im gonna try this out soon if it still works

HacinH - July 14, 2013, 12:52 pm

Im also interested to hack one FB account :) If someone can do that PM ME... I pay for that :=)

Nexus - July 16, 2013, 12:46 pm

Does this still work!? it seems way too simple to still be working, once 3 accounts have been accepted on a victims facebook... you have their account.

Confirmation on it still being viable? i still have to wait 7 days for these accounts of mine to become active as the post says. :)

Hello guys,

I have a problem with this method

Using a vpn, I get this: <https://www.facebook.com/recover/extended/ineligible>

The "ineligible" thing is there ONLY when I'm using a vpn (tor bundle or free online vpn).

Questions:

How Could I bypass this shit?

Do i really need a vpn for this?

Thank you in advance.

Buy a VPN, that's what I did, i find it more secure, and i can access more things with the bundle with Tor.

Thank you for your answer...

Could i ask you to try this method with your paid VPN on and let me know if you reach the good (<https://www.facebook.com/recover/extended>) or wrong (<https://www.facebook.com/recover/extended/ineligible>) page ?

Thank you again

That makes alot of sense to me. I'll try it.

ghost.jpeg - August 2, 2013, 11:10 am

The problem with this method is that FB intelligently varies the friends to whom the recovery code can be sent. For eg, If you choose "X" as the first person to whom the code is to be sent then, you may not be able to select "Y" as the second person. I think proxy should help in this matter. Every time you log in to your fake fb account, you should make sure you use a proxy. So, you should be using three different proxies for the three fake accounts. And, also make sure that the three fake accounts are not mutual friends to each other and should be somewhat old accounts (maybe 1 week old). I've never tried this method. Too lazy to create three fake accounts ;). Hope you have luck breaking your way through fb security!

I don't think this works anymore. As the trusted friends are pre-chosen by the owner of the account in their security settings. If you any of those "trusted" profiles are unfriended, they will no longer be usable as a profile for pw recovery.

Step 1

Step 2.

Since your IP is logged in their DB, you'll want to change your IP.

Step 3.

Get on proxies and resolve your self, change the host & port settings to a proxy.

Then go to some resolves and resolve your own skype.

good attempt but honestly, this method is hard to execute. fb pisses you too much while you attempt to utilize this method. pisses you so much that you say "fuck this shit!! i am done" success rate is low. plus, time consuming, costly in terms of efforts. and after all that you give in, failure fucks you much worse than the limits you were going to fuck your target to. but still, worth trying so go ahead peeps. and definitely, you explained it really well :)

Ya its patched a while ago. Although you can hack gmail. Gmails password recovery is quiet complicated as it asks for dates and all stuff but you can get those by having a research on that person. Usually gmail asks for date of gmail activation on victims phone. You can get that by asking the victim when did. U bought the phone.. As he always logs in gmail when he buys it..... Its quiet complicated but works the most time

Not sure if I have a X on my back for things, is it from posting things that touch on topics that they have tried to censor me in past. Or is it someone flagging my ads that is selling similar stuff. I have tried using different screen names, emails, phones, computers, VPN....nothing is seeming to work. Any help or direction will be greatly appreciated!!!!
