Really cool, adf.ly links..

How is that contributing?

TheRippingGhost - August 19, 2011, 9:44 am

He must surely have spent some time on this. I guess the adf.ly links are a way of saying thanks.

This is a good thread, but it seems a bit cheap to use adf ly links surely you could of just contributed to the community and not tried to earn off it. At the end of the day we can always use the search button.

Yea.

It's not even like you earn much from adf.ly links.

I'd rather just direct it to the thread. Adf.ly, really? You get more out of doing stuff for others then you do doing stuff for yourself
