Hi guys,

I have a budget of £20, any business ideas? if your ideas work you will receive a cut of the money i earn. Thanks

you could invest it into [/p1FWIc\]Powerful-Strategy](#) and put the compounding to 100%, and in 10 business days, you'll have 23.92 euros, and just keep reinvesting it, and in a fair amount of time, youll have a large sum of money.

That is hyip which is illegal in some countries as it is a scam. they take your money and give more back to you for a certain amount of time, and when you give them a big amount of money you never see it again.
