Thread: [\[Faster & Still Free\]iLikeL33t Email Creator 2.0 \[Fully automatic & Multithreaded\]](#)

IDontNeedAUsername - August 21, 2011, 8:28 am

Hi HF,

I created an email creator for this site: classic.netaddress.com!

It's fast because it uses HTTPWebrequests and it's fully automatic because the site doesn't use captcha. Why would you want this?

YouTube Account Creation

Mass Mailing

I've also created two videos:

Version 1.0:

[Video: <http://www.youtube.com/watch?v=bP60DnmAOck>]

Version 2.0:

[Video: <http://www.youtube.com/watch?v=8PnWMRFEb48>]

In the first video the program is pretty slow in the video but that was because camtasia caused lag on my computer. I uploaded a new video of version 2.0 which is multithread and about 3 times as fast.

Virus scan:

If you have any questions or want to give suggestions on what should be edited in the program, please tell me!

Known bugs:

Program doesn't stop after closing it. You should then kill it in taskmanager!

Encrypted link:

Plain text --> HAZZ-15 (x2) --> BASE-64 (x2) --> ESAB-46 (x3) --> RC4 (Pass: Crack this md5(827ccb0eea8a706c4c34a16891f84e7b)) --> FERON-74

Beznia - August 21, 2011, 9:06 am

I did it on \$sharecash anyways, all I had to do was fill out 1 page of random info, which is on autocorrect on Google Chrome, then hit "Pass Sponsored Offer" 6 times, and I found out... I'm ERIC CARTMAN W00T. Nice e-mail creator btw.

Awesome program, would love maybe a small instructions list, for example how to make every email use same password and how to have a word then numbers added after each one for the email. That would be awesome if its possible!

You must be the most stupid person I've seen on HF in a while.. You have to create the youtube accounts yourself, the program is not a YouTube account creator moron..

Socks. - October 7, 2011, 4:50 pm

Nice Share! Downloading Now hope it works

Rogue Asasino - October 8, 2011, 8:24 am

I like the program, but I make 5,000 emails and only like 5 come out to be actually made.

Oh well, still a good program nonetheless!

Thank you :D

Hmm weird.. When I use it, every single account works that the program makes.

Its alot less for me. Sometimes only a few, and sometimes like 20 for 3k emails.

I just did 11k emails though, so lets see how well it will work :)
