Thread: [\[VB.net\] Tabbed Web Browser {Source}](#)

datasync - *October 12, 2009, 7:01 pm*

This is a Web Browser that I found an old source to and modded. Here are the features and some screen shots:

- Tabbed Browsing
- Refresh, Forward, Stop, and Back Buttons
- Google, Yahoo, and Wikipedia Search
- Home Page Options
- Supports History
- Integrated Media Player (Tools > Options)
- Add Tab, Delete Tab

Nice :) Probably the best browser posted here thus far.

Air Prange - *October 12, 2009, 7:07 pm*

good work

good work

good work

Romeo. - *October 12, 2009, 9:56 pm*

there is a tutorial on you tube how to make a web browser like this (with tabs)

Resident - *October 12, 2009, 10:01 pm*

nice! will try it out

BETAhkr - *October 13, 2009, 7:38 am*

Best browser ever posted here? Are you serious? hahaha, This code is beat, it's sooo public, Not to mention

if you knew any better you would change the tab into buttons so it looks nicer, such as mozilla and IE do.

:)

[Chocobro] Nilef - October 13, 2009, 9:17 am

Yes, Posted HERE. Link me to a better one in the VB section?

insaneffame - September 8, 2010, 12:37 pm

can someone repost it?

i wanna see it and get the source for editing.

Anon - September 8, 2010, 1:06 pm

Link doesn't work. Re-upload?

Aeonhack Archivist - September 8, 2010, 3:05 pm

Are you guys serious? This is almost a year old. There are hundreds of examples of how to do this on the internet. Ever heard of Google?

YaHomie - September 8, 2010, 3:23 pm

lol if you dont get it on your own to "code" an simple webbrowser (there is already the webbrowser element)...

greetz

I do believe [R]elapse was looking for a way to make a tabbed webbrowser.

fireboy25 - *July 12, 2011, 11:54 pm*

404 not found reupload buddy

simply_mark - *July 13, 2011, 12:43 am*

Please reupload the file, thank you... :)
