Thread: [Make 200% Money you Invest \[Invest Any Amount And Get Double That Amount\] Exploit](#)

Cybervamp - August 23, 2011, 2:34 am

Ok so i just though of a new exploit that would work or is guaranteed to work to make 100% more the money you invest. Its like this you invest \$50 you get \$100, you invest \$1000 you get \$2000. All you need is a very trusted partner. This is something i haven't tested yet cause i need a patner. But in theory, its is 99.9% sure to work. The margin for error is 0.1%

So basically i created this thread to try it out. But i need a partner who has the following qualities and stuff:

1. Paypal account (Newly created that has to ties to you)
2. \$5 in that paypal account that he/she will be willing to Invest (You will get your money back as soon as testing is over 100% guaranteed)
3. Member must be trustworthy.
4. Must have msn

We can make thousands of \$\$\$\$ with this method. Its a promise. If you want to test this method out, post here and i will choose one person who has all the requirements and we will start this exploit at once cause it is very easy and no technically know how is needed.

It isn't much of a scam if all he gets is 5\$.
What website is the exploit for?

Everybody, please proceed with caution.

If this is some kind of PayPal technique partnering with this guy will in fact put your own PayPal account in jeopardy. Before pursuing anything I suggest you simply ask a lot of questions and make sure you know where your money is going, even if it's \$3.00 - as there is potential for your own PayPal account to get limited if this is something sketchy in nature.

Just my opinion and a warning. This could be something fairly legitimate but from my experience and by utilizing simple common sense, this thing looks sketchy. Fraud is most-likely involved in some sort of way here and any members looking to actually partner up with this guy needs to be careful about not getting oneself involved in something that could potentially put their PayPal account in jeopardy.

I'd be careful if I were you, and that goes out to the OP and to anybody willing to work with this guy. This seems really sketchy IMO. Good luck though if this is something legitimate.

This is one super awesome scam I must say, \$5 really. Come on man, you can do better than that, what happened to the balls and brass of scamming rubes out of \$1,000's like me for instance, you could of scammed me for \$3,000. Not impressed at all but ah, forget about it and good try ;)

An i find your ignorance and stupidity amazing, ar mean, you don't know me, you haven't tested my method or even have proof that my method does not work and yet you -rep me and say 'don't trust, he can't double your money' that is the same reason why most of you kids here are backward and remain stupid. Stay ignorant fool ?

Oh and by the way, only skids and kids like you care about the rep system here on H.f cause we all know it stopped functioning like it was supposed to a long time ago.

LOL. Why does everyone not see the big picture here and all they see is SCAM. Seriously, i don't have a need to SCAM as i have made loads of cash on H.F with my 007 logger basic version. No to talk about scamming for a mere \$5. The least package cost around \$15 so i don't need to scam and am not trying to. GET IT IN YOUR HEADS KIDS

See my previous threads. There is an explanation for it somewhere. I am tired of posting it. If you care enough go look through them. Omni knows about it (Aug 23, 2011 02:51 AM)Validity Wrote: [\[CITE\]](#) Everybody, please proceed with caution.

At least you got brains and didn't just judge, you just stated your opinion. Thanks for being sensible and not posting something stupid like all these immature kids here. ?
