OLD! Please delete outdated thread worthless space taking

SUNHOT - September 10, 2011, 12:22 pm

He is a legit member. Trusted and efficient.

Thx

naF - September 10, 2011, 12:30 pm

I dont get your TOS. Are those allowed or disallowed ..

Well maybe they are disallowed, add before them like Disallowed... or sth.

homieb1030 - September 11, 2011, 5:50 am

Hey i googled onebesthosting as i was looking for some hosting heard they're pretty relaxed on warez / nulled then i found a paste bin and it has server11.onebesthosting.com and these 3 domains.

spetsnazhost.com

spetsnazforum.com

spetsnazinc.com

Explain?

Spetsnaz - September 11, 2011, 9:52 am

server11 was oxyhost.org and other's people server

Server11 no longer exist also.

Th3PonyWizard - September 29, 2011, 12:12 am

Then, it's down =_=

Edit - Hmm, quite weird, it seems like the hosting is down from my side, but i dont belive it. So anyone knows if it's down? O:

Spetsnaz - October 1, 2011, 10:33 am

Its up. You can always check;

Does your webhost allowed phisher? If so, i will buy it

Spetsnaz - October 11, 2011, 7:43 pm

Yes phisher is allowed, you are good as long as you don't violate our TOS =)

Webmasters - October 12, 2011, 12:13 pm

Well, website's not found. And my domain is gone.. Bad.

Black Mesa - October 12, 2011, 12:49 pm

Nice 99.99 percent uptime that you've got there, my friend.

So here you are, with your 99.99% uptime guarantee.. What about that your customers sue you? You'll lose a derpload of money.

I see you use reseller hosting. On your website you say "our servers" numerous amount of times, but they're not your servers.

A hosting company that lies is not a reliable one.

Above you say you allow phishing, but your resellers TOS clearly states what you allow is not allowed.

Spetsnaz - October 21, 2011, 7:16 am

I never lied, no one has ever asked me? Stop putting words in my mouth next time kid.

The ToS is for the onshore hosting, the offshore hosting he provides, the ToS is different bro.

Wanaka - October 21, 2011, 7:37 am

I'm saying you kept saying "our servers" on your website but they're NOT your servers.

Spetsnaz - October 21, 2011, 8:09 am

What would you say it is more appropriate then?

Wanaka - October 21, 2011, 8:42 am

The servers you will be hosted on.

The server we use.

Something along those lines.

Spetsnaz - *October 22, 2011, 12:16 am*

Aight thank you, ill get right on it.

d4rkj4y - *October 22, 2011, 2:14 am*

Okay, so these are not YOUR servers, but onethebesthosting's.
