I Can also try Portforwarding for you!

For PEOPLE THAT ARE UNABLE TO FOLLOW TUTORIALS :D

Inb4 "OH no thats the last thing hackforums needs, more booters + botnets"

### Requirments

A Host - if you can't find one i will find you one (IF ALL BUT RAT)

The Files - I THINK I have istealer files, + some botnets. (IF ALL BUT RAT)

Teamviewer (Optional) i can always set up on my own computer, and send you the cpanel + panel user+password.

What do these come with?

Booter - 10 Public Shells

Botnet - One Victim

iStealer - One Victim

RATS - One Victim

### Format

Code Istealer/Botnet/Booter/RAT - ???

Do you have a host? (IF ALL BUT RAT) -

Teamviewer or the Optional option? -

Contact Information (Msn/Skype/Aim) -

This is a Free Service, i apologise if i'm Slow. As i have alot to do however, i'm very patient, so feel free to ask me anything!

No Member Requirements other than i said above.

If i'm in a nice mood, i will also crypt.

I understand, a 30 post offering free setups? Omfg must be a scammer!!!!... Seriously, post count isn't everything. i am trusted on many forums, as i said, you don't have to trust me.

Thanks for that, yeah i hope it goes well, should reduce some "HOW CAN I SETUP RATTT!?!?" as i'll also do it twice, so when they want to do it again they'll hopefully know how.
