DOWNLOAD

REMOVED!!!

Why? Because Shitcash allow only 50 download in one day, when my downloader download 50 files, it don't works for one day, i've said it to you, but some stupid people have insulted my work, so later i make a new post where i will give my downloader for free only for l33t and ub3r, because i think that they are l33ts and ub3rs because they are intelligent, and i sell this downloader for normal

users for 1€.

P.S. the downloader that you have now, no longer works, because i've changed the credentials..

lillmrcool89 - August 25, 2011, 1:15 am

must admit it bro at first i thought it was some type of backdoored weird thing lol but it works awesome...need .net framework 4.0 to work it.I also noticed that it works with internet explorer and that can be a mess since downloads just dissappear and you can never find them with internet explorer.All that aside great job man! keep up the good work =)

Gr0wlit - August 25, 2011, 1:31 am

FOR ALL... I've tried to download and i found the problem... My downloader works, but shitcash allow only 50 download for day, so wait another day and my downloader works again!
