Hey this is a step by step guide To having An Animated Theme Skin

[Step] 1: You Need To Download That Programme Below Yes its safe Make sure You Run it as Administrator By right clicking On the name Of the Programme :D

Windows

7:<http://www.softpedia.com/progDownload/Windows-7-DreamScene-Activator-Download-158552.html>

[Step] 2: Go To This Link

<http://dreamscene.org/gallery.php?page=14&Cmd=Show&site=all#downloadgallery> And Choose The One You Want :D

[Step 3] Once You Have Widnows Media Player Save "The video" Into A Custom Folder Of Your Choice :D

[Step] 4: Drag it into Ur desktop And Run As Desktop Back ground

I forgot You must Have Windows aero Scheme Selected :D

How to Select Windows Aero Scheme

Step 1:Search "troubleshooting" On windows 7 Start Button

Step 2: Display Aero Desktop Effects

Step 3:Click it Then Go to advanced setting And select Advanced Settings It will say "Apply repairs Autcomaticlly"

Step 4: Go through The Whole Proccess.

Step 5: Kaboom Your Done :D

Guys Please leave a comment Down This Was my first Tutorial Please Rep Me I Will be making More Tutorials If you like this One :D

This isn't an 'animated theme skin', this is just a Dreamscene tutorial. And it needs pictures.

NEVER ask for rep.

EDIT: I just noticed this was horribly necro'd...
