2. Download Blackbox

<http://www.#/?d=B763HKP3>

Picture: <https://gyazo.com/8bf000883fa375f190f231ff602dd44b>

3. Open Blackbox Login with this:

User: vps1

Pass: jeph

4. Open putty enter this IP: 213.152.174.532

5. Enter the IP you want to hit off in Blackbox after the IP put the amount of seconds: for example:

Picture: <https://gyazo.com/1b34adb1ad782e9250949803ba521f51>

Click enter and they should go offline for the amount of seconds :)!

Enjoy.

You have 1 post, and negative 3 rep. Hell yeah, I'm downloading this.

bomba123 - December 7, 2011, 8:15 am

lol 1 post? anyone tried it? or just make a video

zAmup - December 11, 2011, 6:10 am

Sorry, my kaspersky wont open it :(:(:(

theoryderanks - December 11, 2011, 6:05 pm

the fucken server doesnt even exist hahaha

Good Guy Greg - December 11, 2011, 6:15 pm

Guess I'll take a look at this.. Thanks OP.

Ac!d - December 11, 2011, 6:58 pm

The .bat file contains a virus called

winupdate.exe
