Thread: [\[DATABASE\] Need forum database hacked - Will pay \[\\$\\$\\$\]](#)

Q00 - August 27, 2011, 8:45 pm

Hey guys,

I'm looking for someone who could gain access to the database of any one of the few forums I have in mind. I'm after a username, pass and whatever other info can be provided list.

Contact me via PM or leave a reply here.
I won't state a price yet as we can discuss this.

Also, I just have one question; is this sort of thing relatively easy to do?

Thanks for your help!

Is this possible to do on Illegal vbulletin forum?

xxwarxx - November 21, 2011, 6:15 am

If administrator of Forum bans you then can you hack into the Forum and change username of the profile the administrator banned.

If yes how.

If anyone can do this for me then email me.

Money will not be problem if the job can be done and reflected in Google search results.

This thread is 14 years old, its place is underground, in a coffin.

Please don't dig up old threads, take a look at the date and if the member who posted is still active (not closed / banned)

Thanks
