I'd love to get ub3r, but I am not approved; Are you paying or seeing as you're staff doing it for free?
Just curious.

Industry - August 28, 2011, 7:09 pm

Awesome contest again bud. It feels great to upgrade users at random. I actually think when I get my paycheck I'll do a nice one myself.

On topic/off topic: Can I nominate someone that I think deserves to be upgraded or just have them post it?

Long exaggerated ESSAY of why I should upgrade you: I believe I should be accepted into the Hall of L33Ts because I am one of teh best members on HF and my swag prevents me from purchasing it myself, so a beast staff member like you could help me out. I also provide a lot contributions to HF, and I am on HF for 6+ Hours a day, and try to post on anything I can relate to. I also would like to receive a member upgrade to L33T because it will make me a more trusted member in the frequent sales I have with other members, and I would like to give buyer/seller input to the member I dealt with by using the reputation system. Finally, I would love to see the extras that I would otherwise not see since I am a normal member.

I would recommend someone, but I don't know many people here that aren't already upgraded. Pretty awesome of you xerotic!

Long exaggerated ESSAY of why I should upgrade you: I feel I am a great candidate to be upgraded because I thoroughly enjoy my time here on Hack Forums. I do my best to keep everything positive, this includes my attitude and the attitudes of others. I try and hope to stay on the good side of all the members. One reason I feel you should upgrade me is because unfortunately I am unable to make the means necessary to buy the upgrade myself. Now, I know what you are thinking, he's probably just saying that to win me over. Truth is, I am not, I won a contest similar to this held by the user Kamarov ,(he may have changed his name now), and that is how I was upgraded to L33T. The reason I cannot make the means to get upgraded to Ub3r is because my parents recently split up, my dad only gives my mother child support and nothing more. This child support only covers the tuition of my school. My mother only makes enough to pay for our house and basic necessities. Don't believe me? I am currently accessing this website on a Windows XP lap top that doesn't even have enough memory to download and play Maple Story. This upgrade would mean the world to me. It would encourage me to continue doing my best to help the community of Hack Forums in a way that may not seem evident. However, this is because I feel the people that link all their 10k giveaways on this thread are really not contributing to what actually matters. They are giving away stuff not helping others.

Anything else you would like to say: May the best man/woman win this contest.

Favorite HF Smilie: ? .

HF Role Model: I don't have one =\

Long exaggerated ESSAY of why I should upgrade you: Why should you upgrade me? Well, I feel like even though I'm new to the site(based on activity) My knowledge of forums helps me on my way. I haven't broke any rules and don't plan to, I reply to threads only when I feel is necessary; Post count is a mere number to me... I never post LQ posts (to my knowledge).

There's probably plenty of members that deserve to be upgraded over me, which is fine :) I wouldn't expect to be upgraded via entering a contest/giveaway. I can live with that; I'll just continue to do my thing without a badge and a colored name.

Maybe not the essay you were looking for, but oh well.

Anything else you would like to say: Thanks for the generous giveaway and good luck on finding someone to upgrade!

Long exaggerated ESSAY of why I should upgrade you:

I was member in HF since 22-12-10 and I have done some contribution . I listed it above . I always here to try to help others that has problem , especially in RAT because I'm little bit good at RAT. I don't know if I'm HQ or not but I tried my best to be HQ . You can judge by my post or my thread . Also , I never scam someone and never will because I hate scammer . By the way , I got approved for UB3R by Omni but I can't afford for it and hope someone will buy it for me . As you can see I participate all active upgrade contest. If I got UB3R , I promise myself that I will more HQ and do more contribution . Now , I'm learning VB6 , I never code before but after I finish learning and can code something , I will share with community in HF . I got something in mind to share but it kinda hard to do for Newbie like me . Thank you .

Good Luck Everyone ..

Long exaggerated ESSAY of why I should upgrade you: Hello My name is LeboJoe. I came to HF just a couple of moths ago and i have seriously became addicted by trying to do my best to do HQ posts and try my best to Respect other members including staff and higher Ranks. These past weeks have been amazing as the beautiful Bugga (UBER MEMBER) Upgraded me to L33t and i was really happy as she said that i was a HQ person and was respectful (not to float my boat). I also do believe that i can do more for the community by giving more of my time to HF by posting TUT's ,Helping people with their Tech Problems (i would love to be a TechSpert) and other things as well. I might have a LQ post warning , But that was because when i first came here and i didn't know the rules so well and all so please dont think i am bad because of that. Ask and look in my profile threads and see the reactions by people. And most Importantly I have been excepted by Omni. I hope that sums up How much i love HF. I come to HF to talk to friends and get along to make more friends. I love It. I spend all night On HF just to make good Tuts for other people to enjoy.

I think thats all i can say.

Thanks
