P??sonl?af - August 30, 2011, 6:43 am

I. General information.

Hiya, No it's not nearly a real hack nor it doesn't need something to be downloaded.
I haven't seen anyone putting this up and I just hope that with this I could enlightened the fellow HF member.

II. Getting started.

You will need a Facebook account.
Friends.
Your slave as friend if you have a slave.
Some good old luck.

III. The act itself.

Like stated above it's fairly easy. Log onto your Facebook and go to the top right side to Account
Click on it then click on edit friends.

Once there Click on contacts and you will see a list of friends with posted phone numbers under them.

And there you have it, It's real easy way into getting someone phone number with some luck.
Phone numbers are use full when you want to annoying your slave.
Let's hope this was use full for at least the smaller part of HF.

P??sonl?af - August 30, 2011, 12:55 pm

I thought so too but I was chatting with some friends and none of them seem to know.

It's easily to abuse and unsafe from facebook point of view, but then again what on facebook is safe.

How many friends do you have?

Do these friends use they cell phone to access Facebook ?

If they don't, none of them do then you wont see any numbers.
