Hi

I don't have l33t and Uber but really need to get JS FEED on my site

Will u be able to help me?

SnowMobile - August 30, 2011, 2:16 pm

Should definitely share this with everyone

:)

Yagami Light - August 31, 2011, 3:08 pm

unfortunately . i cant share this. :)... this knowledge should be kept.

king_hendra - August 31, 2011, 5:47 pm

just a little advice sharing knowledge is better than not share

Yagami Light - August 31, 2011, 5:53 pm

yeah. sharing stuffs are good. but i realized.

do they share what they have?

l33t's and ub3rs bought their account for simply gaining trust and to access on restricted things.

Lets say this service is one of the benefits.

Bullshit you just want some rep also there was a thread on this topic I think you're using that method..you're logging thru a mirror site.

Also before doing I33t and uber things you should buy I33t too.

guo9810 - August 31, 2011, 6:32 pm

I vouch for this guy. He did it for me perfectly fine, and didn't attempt to change password or anything...

After he did it for me, I ended up acquiring knowledge on how to do it by somebody else.

He is still trustworthy, and I have earned 25\$ with bidtraffic in 4 hours. You people should really get your javascripts working

Cookiz - August 31, 2011, 7:56 pm

In my opinion he is in it for the +rep.

Fast tut on how to make the Javascript Feed appear

1. Download Mozilla Firefox
2. Go to Bidtraffic's Website
3. Login
4. It'll be there whenever you want.

People with Google Chrome experience this problem and that's a quick fix. Enjoy :D

THIS WILL WORK FOR SOME PEOPLE. I CANNOT GUARANTEE
